**Re:** **Loss Run requests to Mai La**

---

During the last couple of months we have been emphasizing the use of Intellirisk for loss runs and provided training. As of January 1, 2003, Division 66 will not be providing loss runs if the loss information is available in Intellirisk. For some of you that will require that you contact your Program Manager for that information.

However, if the loss information or the policy is not available to you via Intellirisk, we request that you forward a copy of the policies not being found to your Program Manager. Your Program Manager will then forward this information on to our Claims Liaison to determine why it is not in Intellirisk.

We hope that you understand that it our intention to speed up that process by providing access to the claims information through Intellirisk. This is an valuable tool that is critical in properly underwriting your program accounts.
