eSTART Announcement

AIG must identify and monitor any potential insurance policies issued to a US Government Entity in order to avoid being classified as a government contractor. Status as a government contractor requires compliance with various laws promulgated by the Federal government with respect to employment standards. In order to control our exposure an edit has been programmed into the eStart system.

A "block" in eSTART will take effect this Monday, October 1, 2007 to flag US government entities. When a "hit" occurs, the following message will be generated.

" Federal Government Entity Block: This account is an entity of the United States Federal Government. The release of this submission can only be authorized by one of the following from DBG Compliance: Joe Hobbs (212-458-7013, joseph.hobbs@aig.com), Charles Smith (212-458-7024, charles.smith4@aig.com) or Maxine Blake (212-458-6162, Maxine.blake@aig.com)"

Please contact your Program Manager (not Cathy Churchill) with any questions concerning this matter. **DO NOT CONTACT ANY OF THE AIG PEOPLE LISTED IN THE MESSAGE!**
