Park Fire (California)

2. **Event Details:**

1. The Park Fire, the seventh-largest wildfire in California history, has burned 370,237 acres and is 12% contained as-of Monday, July 29th.
2. The fire has destroyed 100 structures and threatens thousands more, according to CalFire.
3. The fire has grown roughly 170,000 acres in the last three days. Evacuation warnings or orders are in place in Butte, Tehama, Plumas and Shasta counties.
4. Paradise and several other Butte County communities were under an evacuation warning Sunday. Yet the fire's southernmost front, which is closest to Paradise, was "looking really good," Cal Fire operations section chief Jeremy Pierce said.
5. Officials did not expect it to move farther into Chico, a city of about 100,000 people just west of Paradise, and crews plan to extinguish hot spots and remove hazards over the next few days, Pierce said.
6. On the fire's northern tier, there are high fuel loads, which could keep the fire moving, officials said Saturday.

3. **Moratorium Duration:**

1. This moratorium will remain in place until further notice.
