## Wind Loss Mitigation Rule and Factors Available

Reference Bulletins: [17-0233](#) and [17-0484](#)

The new state-specific manual rule addressing Wind Loss Mitigation Factors that enables companies to comply with Oklahoma House Bill 1720 is available, effective April 1, 2018. This bulletin provides the company action needed to adopt the filing.

### BACKGROUND

As communicated in Reference Bulletin 17-0484, House Bill 1720 requires insurance companies to provide a premium discount, rate reduction, or other adjustment to property owners who construct, locate, or retrofit insurable property in the state to resist loss due to a tornado or other catastrophic windstorm events. The law became effective on November 1, 2017 but will only apply to new policies written, or existing policies renewed, on or after April 1, 2018.

To address this legislation, Step 11, Wind Loss Mitigation Factors was added under Rule 4.1, Calculation of Property Premium to enable companies to provide premium credits for one-family dwellings that are constructed in accordance with Appendix Y of the 2015 Oklahoma Uniform Building Code or the FORTIFIED Home™ - High Wind and Hail Standards adopted by the Institute for Business and Home Safety® (IBHS) and one family dwellings retrofitted in accordance with the FORTIFIED Home™ - High Wind and Hail Standards adopted by the IBHS.

### CHANGES

The revision number on state exception pages Oklahoma - 1 through Oklahoma - 3, which set forth Step 11 of Rule 4.1, has been changed from Rev 3.1 to Rev 3.3.

## COMPANY ACTION

The Company Action sections prepared for the AAIS bulletins issued to announce the approval of a filing or the availability of the materials have recently been expanded to provide specific instructions for a broader range of variables.

The action needed to adopt or not adopt each filing depends on the company's specific intent, as well as other possible variables. The Company Action information that follows should be reviewed carefully with respect to the action needed to adopt or not adopt the new or revised materials that are the subject of this bulletin.

The AAIS filing submitted in this state advised the insurance department that the materials may be provided to affiliated companies in an electronic format. The department was informed that due to differences in printer configurations or other hardware or software differences, the cosmetic appearance of the material may be altered slightly when produced by another system without affecting the content.
