Subject: RE: AIG ISO Circular Adoption Reports - 03/15/2021

Good Afternoon,

Please note, LI-CM-2021-007 is a multistate forms and rules revision which included Colorado. While the Colorado forms can be auto adopted, AIG has to file to adopt the rules which was reflected in the captioned reports.

As both rules and forms should be implemented simultaneously, we are asking that you don't implement the Colorado forms as we have not yet received approval for the rules (a filing is now required for both revisions).

We will notify you via the bi-weekly reports once approval is received for this state. Please let me know if you have questions or need additional information. Thank you.

Subject: AIG ISO Circular Adoption Reports - 03/15/2021

Good Afternoon,

This week's distribution is being sent in one part.

Attached you will find a ZIP file containing documents pertaining to AIG's adoption status of ISO circulars as of the date noted above. This information is being provided to Program Administrators who are utilizing ISO products and issuing policies through the use of their own policy issuance system. It is AIG

Programs' expectation that PAs are implementing ISO circulars that impact their Program(s) in accordance with the information contained herein. The following describes the two reports provided:

AIG Approved and Auto Adopt Filings report – This report details all of the ISO circulars in the last two week period that AIG has either filed and received regulatory approval or automatically adopted (i.e. without the need to submit a filing for approval). The effective date for which each circular is to be implemented is shown in Column B of the report. Please note that in addition to this report, the ZIP file contains the referenced ISO circular and/or AIG filing confirmations, when applicable.

AIG Delay Adopts and Filings Required report – This report provides a compilation of all ISO circulars, through the date of the report, that AIG has not yet adopted and thus are being “delay” adopted via filings to be submitted and approved. Upon filing approval, circulars that were delayed in their adoption will be transitioned from this report onto the AIG Approved and Auto Adopt Filings report and will indicate the effective date for implementation.

Please note that this ZIP file will be maintained on the AIG Program Administrators' Website (under the “Compliance” Section, “ISO” Subsection and in the “ISO Outlook Report” area). Should you have any questions regarding the content of these reports, please contact your AIG Program Manager. Thank you.
