UPGRADE TO WORD AND EXCEL DOCUMENTS

As previously noted, ISO is implementing changes to our authoring and delivery systems so that **newly created** documents will be delivered in Office 365 .docx/.xlsx format to be phased in by product/service. In addition to **form** documents, we are pleased to announce that during the third quarter 2021, you will be receiving **circular cover letter** and **Notice To Manualholders (NTM)** documents in .docx format delivered/accessed via Circulars, CLM, EFD, ERC, Filings, FIRST, Forms Library, PRM and Suite +. Changes continue for other document types to be phased in by product/service. Products impacted include, but are not limited to, documents delivered/accessed via Circulars, CLM, EFD, ERC, Filings, FIRST, Forms Library (including PolicyWriting Support Forms Instructional Supplement), PRM, Statistical Plans and Suite +.

BACKGROUND

ISO introduced the Optional Class Plan (OCP) as an "optional rating manual/rating plan" to the standard ISO Commercial Auto Manual classification and rating system for those insurers that elect to use this rating approach. The OCP was not filed on behalf of insurers that have given us filing authorization. Instead it is up to each individual insurer to determine whether to adopt the OCP and to make an appropriate filing.

IMPORTANT NOTE

These loss costs are intended for use by insurers that have implemented the OCP.

ISO ACTION

We are implementing CA-2021-BRLB1, which revises loss costs for use with the Commercial Auto OCP. Refer to the attached explanatory material for complete details about this filing.

SUPPLEMENTARY INFORMATION

We are including the loss cost exhibits contained in this filing in a Microsoft® Excel workbook.

NOTE: This supplementary information is **not** part of the experience review document and, in states where we are making a filing, is **not** part of the filing.

EFFECTIVE DATE

The ISO revision is subject to the following rule of application:

These changes are applicable to all policies written on or after January 1, 2022.

This effective date applies only to those insurers who have filed their Commercial Auto loss cost adjustments to be automatically applicable to future ISO loss cost revisions.

IMPACT ON THE STATISTICAL REPORTING OF LOSS COST MULTIPLIER

For the purpose of reporting your company Loss Cost Multiplier under the CSP, as of January 1, 2022, if your company has implemented the Optional Class Plan, the multiplier must be based on the relationship between your gross rates and the ISO advisory prospective loss costs contained in this circular.

COMPANY ACTION

You must independently determine the final rates you will use. The action, if any, you must take in response to this filing is dependent upon whether you filed to adopt the Optional Class Plan and how you filed to have your loss cost adjustments apply to subsequent revisions of ISO Optional Class Plan loss costs. Any submission you make with respect to this revision must comply with applicable regulatory filing requirements.

For guidance on submission requirements, consult the ISO State Filing Handbook.

WE WILL SUBMIT OUR REFERENCE FILING TO THE INSURANCE DEPARTMENT ON NOVEMBER 24, 2021. ANY SUBMISSION YOU MAY MAKE WITH THE INSURANCE DEPARTMENT WITH RESPECT TO THIS FILING SHOULD NOT BE SUBMITTED PRIOR TO THIS DATE.

In all correspondence with the Insurance Department on this revision, you should refer to ISO Reference Filing Number CA-2021-BRLB1, NOT this circular number.

CAUTION: This reference filing revises only certain advisory prospective loss costs for Commercial Auto in this state. In determining whether or not to revise your rates, you should consider the application of your loss cost adjustments to any loss costs not included in this revision.

RATING SOFTWARE IMPACT

No new attributes are being introduced with this revision.

POLICYHOLDER NOTIFICATION

If you decide to implement this revision, you should check all applicable laws for the state(s) to which this revision applies, to determine whether or not a specific policyholder notice requirement may apply. Please note that circular [LI-CL-2021-004](#) contains the ISO Guide To Renewals With Changed Conditions For Commercial Lines, which is available only as a guide to assist participating companies in complying with various conditional renewal statutes or regulations, for the major commercial lines of insurance serviced by ISO. The information in the Guide does not necessarily reflect all requirements or exceptions that may apply, and it is not intended as a substitute for your review of all applicable statutes and regulations concerning policyholder notification.

REVISION DISTRIBUTION

We will issue a Notice to Manualholders with an edition date of 1-22 (or the earliest possible subsequent date), along with any new and/or revised manual pages.

DATA QUALITY

Statistical plan data reported to ISO is first processed through a system of rigorous automated data verification procedures so that only valid data would be used for ratemaking. Subsequent to this initial data submission review, additional analyses on the statistical plan data involving an even more customized data review for this line were performed by staff. During these processes, various data records were excluded from the review. The ISO staff responsible for this circular also reviewed the data for reasonableness.

Commercial Auto Optional Classification Plan Loss Costs Revised in Colorado

About This Filing

This filing contains loss cost pages for use with the Commercial Auto Optional Classification Plan (OCP) rules in Division One-Automobile of the Commercial Lines Manual (CLM).

The advisory prospective loss costs presented in this document for the Commercial Auto Optional Classification Plan are being revised concurrently with ISO's experience review in the companion filing CA-2021-BRLA1. The overall statewide level change for the CA-2021-BRLA1 filing is 2.6%. The loss cost percent changes in this filing track the percent changes in filing CA-2021-BRLA1.

Background

ISO introduced the Optional Class Plan as an "optional rating manual/rating plan" to the standard ISO Commercial Auto Manual classification and rating system for those insurers who elect to use this rating approach. ISO did not file the Optional Class Plan on behalf of insurers that have given us filing authorization. Instead, it is up to each individual insurer to determine whether to adopt the ISO Optional Class Plan and to make an appropriate filing.

To maintain revenue neutrality between the standard ISO Class Plan and the Optional Class Plan, both sets of loss costs are revised simultaneously. This filing contains the Optional Class Plan loss costs to correspond with the revision in the experience review in the companion filing.

Related Filing

Companion filing:

- CA-2021-BRLA1

Calculation of Loss Costs

The advisory prospective loss costs presented in this document for the Commercial Auto Optional Classification Plan are being revised concurrently with ISO's experience review in the companion filing CA-2021-BRLA1. The territorial base loss costs for the Optional Class Plan are calculated by applying an off-balance factor to the loss costs used with the standard (non-OCP) manual. For classes and coverages not impacted by the Optional Classification Plan, the loss costs in the standard manual are reproduced on the Optional Classification Plan loss cost pages, for the sake of convenience.

A summary of the off-balance factors by coverage are presented in Section A of this filing. The off-balance factors used in this filing were presented in the introductory filing CA-2016-BRLB1. The loss cost percent changes track the percent changes in filing CA-2021-BRLA1.

Contents of Filing

This filing contains the following sections:

- ◆ **Section A – Calculation of the Optional Class Plan Base Loss Costs**
- ◆ **Section B – Optional Class Plan Loss Cost Pages**

Impact of Revision

As a result of this filing, participating insurers who opt to use the Optional Class Plan will adopt the territorial changes that track those filed in companion filing CA-2021-BRLA1.
