IDAHO SUPPLEMENT TO THE COMMERCIAL AUTO 2022 MULTISTATE RULES FILING PROVIDED AND TO BE IMPLEMENTED

KEY MESSAGE

We are providing a rules supplement to filing CA-2022-RCP1 in Idaho, which complements the multistate rules filing attached to circular LI-CA-2022-113. We are also implementing filing CA-2022-RCP1 in Idaho.

Effective Date: 07/01/2023

BACKGROUND

In circular [LI-CA-2022-113](#), we announced the filing of multistate rules filing CA-2022-RCP1 and advised that we would be submitting state-specific rules supplements in all ISO jurisdictions.

ISO ACTION

In addition to the multistate material, we are providing the attached Idaho rules supplement to multistate filing CA-2022-RCP1.

Refer to the attached explanatory material for complete details about the filing.

EFFECTIVE DATE

The ISO revision is subject to the following rule of application:

These changes are applicable to all policies written on or after July 1, 2023.

IMPACT ON STATISTICAL REPORTING

ISO is in the process of reviewing the statistical reporting impact of this filing. A Statistical Plan Holders circular announcing revisions to the Commercial Auto module in the Commercial Statistical Plans will be released to the industry allowing sufficient lead-time to implement any applicable changes.

COMPANY ACTION

If you have authorized us to file on your behalf and decide:

- To use our revision and effective date, you are not required to file anything with the Insurance Department.
- To use our revision with a different effective date, to use our revision with modification, or to not use our revision, you must make an appropriate submission with the Insurance Department.

For guidance on submission requirements, consult the ISO State Filing Handbook.

In all correspondence with the Insurance Department on this revision, you should refer to ISO Filing Number CA-2022-RCP1 and SERFF Tracking Number ISOF-133216521, NOT this circular number. Communications with the regulator concerning a filing affecting multiple lines of business (i.e., CL, PL, AL filing designation) should specify the line(s) of business that you are addressing.

RATING SOFTWARE IMPACT

Refer to circular [LI-CA-2022-113](#) for impact of the rules multistate filing.

REVISION DISTRIBUTION

We will issue a Notice to Manualholders with an edition date of **7-23** (or the earliest possible subsequent date), along with any new and/or revised manual pages.

RELATED LOSS COSTS REVISION

In circular [LI-CA-2022-159](#), we are announcing the corresponding loss costs supplement and implementation.

DATA QUALITY

Statistical plan data reported to ISO is first processed through a system of rigorous automated data verification procedures so that only valid data would be used for ratemaking. Subsequent to this initial data submission review, additional analyses on the statistical plan data involving an even more customized data review for this line were performed by staff. During these processes, various data records were excluded from the review. The ISO staff responsible for this circular also reviewed the data for reasonableness.

ACKNOWLEDGMENT OF ACTUARIAL QUALIFICATIONS

The American Academy of Actuaries' "Qualifications Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States" requires that an actuary issuing a Statement of Actuarial Opinion should include an acknowledgment with the opinion that he/she has met the qualification standards of the AAA. ISO considers this rules filing a Statement of Actuarial Opinion; therefore, we are including the following acknowledgment:

I, Daniel Traverso, am an Actuarial Associate for ISO, and I, Kevin Hughes, am an Actuarial Director for Commercial Auto for ISO. We are jointly responsible for the content of this Statement of Actuarial Opinion. We are both members of the American Academy of Actuaries and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

Idaho Supplement To The 2022 Commercial Auto Multistate Rules Revision

About This Filing

This supplement addresses state exceptions to the ISO Commercial Lines Manual Division One – Automobile – Multistate Rules ("multistate manual") to complement the changes being made in the multistate portion of this filing. Due to the large volume of material in the filing, we provide a table below indicating, by rule number, what type of change has been made. Changes are broadly categorized as follows:

- ◆ No Change: In these rules the only change is the rule number itself and updates to the references of other rules.
- ◆ Clarified Meaning: In these rules, we have altered the language to make the instructions easier to understand and implement. However, there is no change made to the substance of the rating instruction.
- ◆ Rating Change: In these rules the advisory rating instructions have changed.
- ◆ Deleted: These rules are deemed no longer necessary.
- ◆ New Rule: These rules do not have a corresponding old rule.

Table of Rule Changes

Related Filing(s)

The following companion filings will be implemented concurrently with this filing:

- ♦ CA-2022-RLC1 (Loss Costs)

Background

In the multistate portion of this filing, we are withdrawing existing rules and replacing them with similar content in new rules, with the rule number from the standard manual incremented by 200. For example, Rule 212 contains the content corresponding to former Rule 12.

Explanation of Changes

The following state exceptions are being added, revised or withdrawn to correspond with the changes being made in the multistate portion of this filing. The explanations for these changes are described on the following pages, organized by the new rule number:

Rule 222. Premium Development – Other Than Zone-Rated Autos

The fleet factors have been replaced by the fleet size factors used in the Optional Class Plan rating.

Rule 223. Trucks, Tractors and Trailers Classifications

The primary and secondary classification tables have been updated to match the Optional Class Plan rating. The paragraph regarding Amusement Devices has been moved to multistate Rule 222. The additional coverage factors have a new designated home in Rule 308.

Rule 224. Truckers/Motor Carriers

This exception contains the Zone Combinations Factors only. The paragraph on premium determination now resides in the multistate Rule 224.

Rule 225. Premium Development – Zone-Rated Autos

The fleet factor has been replaced by a fleet size factor, but the values have not changed. We are expanding the table structure here and elsewhere to set it up for a future experience-based review.

The primary and secondary classification tables for zone-rated vehicles now reside in this rule.

Rule 231. Eligibility

The classification codes and Optional Class Plan rating factors for Private Passenger Types now reside in the state exception to Rule 231.

Rule 232. Private Passenger Types Classifications

The fleet size factors used in the Optional Class Plan rating now reside in the state exception to Rule **232**.

Rule 239. Premium Development – Other Than Zone-Rated Autos

The fleet factor has been replaced by a fleet size factor, but the values have not changed. We are expanding the table structure here and elsewhere to set it up for a future experience-based review. The Mechanical Lift Factor has been moved to the multistate Rule **239**.

Rule 240. Public Auto Classifications

The paragraph on Primary Classifications resides in the multistate Rule **240**, since most states share this language. The state exception to Rule **240**, now only contains the classifications that differ from the multistate rule. The additional coverage factors have a new designated home in Rule **308**.

Rule 241. Premium Development – Zone-Rated Autos

The state exception for Rule **41**, is no longer needed since the Mechanical Lift Factor has been moved to the multistate Rule **239**.

Rule 277. Motorcycles

The Uninsured Motorists premium computation instructions previously resided in the multistate Rule **277**, but have been moved to the state exception pages.

Rule 297. Uninsured Motorists Insurance

We converted the premium computation instructions to our new standard format.

Rule 298. Deductible Insurance

Liability Deductibles will now be priced with a Deductible Discount Factor that is subtracted from the Increased Limits Factor. This is a change in presentation only and is mathematically equivalent to the prior approach. The factor tables that previously existed in Rule **98**, and Rule **298**, now reside in the state exceptions.

We have introduced higher deductible amounts for the Other Than Collision coverages. The support for this update was provided in the multistate rules revision filed in 2019 with ISO filing designation CA-2019-RRU19.

Rule 301. Vehicle Age and Price Bracket

We have changed the name of this rule to reflect its focus on Vehicle Age and Price Bracket Rating. These rating variables are now used for both Liability and Physical Damage.

Rule **308**. Physical Damage Coverages

This rule was introduced to house some physical damage content that previously resided elsewhere. The factors in section A used to be in Rules **23**. And **25**.

| **SECTION I—GENERAL RULES**

212. FORMS PORTFOLIO REFERENCE

The following is added to Paragraph **B.:**

The following endorsements are mandatory and must be attached to all Commercial Auto Coverage Parts:

1. Idaho Changes Endorsement **CA 01 18**
2. Idaho Changes – Cancellation And Nonrenewal Endorsement **IL 02 04**

218. RATING TERRITORIES

Paragraph **A.3.** is replaced by the following:

A. Territory Determination

- 3.** If the manual refers to this paragraph to determine rating territory, use Territory 104 when the address of the named insured is located in this jurisdiction.

* For trailers used with light trucks which regularly operate beyond a 200-mile radius, use the primary rating factor for the intermediate rating class.

Table 223.B. Primary Classifications – Rating Factors And Statistical Codes – Non-zone Rated

Paragraph C. is replaced by the following:

C. Secondary Classification – Special Industry Class – Non-zone Rated

1. Application

Classify the vehicle according to its use. Insert the code provided in the 4th and 5th digits of the classification code.

2. Autos Having More Than One Use

Where more than one secondary rating factor applies, use the highest-rated classification unless 80% of the use is in a lower-rated activity. In that case, use the lower-rated classification.

3. Trucking Operations

A risk engaged in trucking operations described in Rule **224.A.1.** is assigned to the truckers secondary classification even though they advertise or describe themselves as a contractor, building contractor, building material dealer, sand and gravel hauler, or some other similar name.

4. Secondary Classification Factors

Table 225.C.2. Primary Classifications – Rating Factors And Statistical Codes – Zone Rated

The following is added to Paragraph **C.3.**:

a. Application

Classify the vehicle according to its use. Insert the code provided in the 4th and 5th digits of the classification code.

b. Autos Having More Than One Use

Where more than one secondary rating factor applies, use the highest-rated classification unless 80% of the use is in a lower-rated activity. In that case, use the lower-rated classification.

c. Trucking Operations

A risk engaged in trucking operations described in Rule **224.A.1.** is assigned to the truckers secondary classification even though they advertise or describe themselves as a contractor, building contractor, building material dealer, sand and gravel hauler, or some other similar name.

240. PUBLIC AUTO CLASSIFICATIONS

Paragraph C.2.I. is replaced by the following:

C. Primary Classifications

2. Use Class

I. Van Pools

An auto of the station wagon, van, truck or bus type used to provide prearranged commuter transportation for employees to and from work and not otherwise used to transport passengers for a charge.

(1) Employer-furnished Transportation

Transportation is held out by the employer as an inducement to employment or a condition of employment, or transportation is incident to employment.

(a) Employer-owned Autos

Autos owned, or leased for one year or more, by an employer and used to provide transportation only for its employees.

(b) Employee-owned Autos

Any employee-owned autos meeting the eligibility requirements of employer furnished transportation are considered as Van Pools – All Other.

(2) All Other

Autos that do not meet the eligibility requirements of Paragraph C.2.I.(1).

Paragraph C.3. is replaced by the following:

D. Secondary Classifications

Secondary classification codes and factors are provided for non-zone-rated Buses, which include Airport Limousines. For those classes, the secondary classification codes are found in the fourth digit of the classification code. For all other Public Autos, the four-digit classification code is determined by primary classification alone and the secondary factor is always zero.

SECTION VI – SPECIAL TYPES

270. FINANCED AUTOS

Paragraph **A.** is replaced by the following:

A. Application

Write financed autos at manual rates and minimum charges, except for single interest coverage. Use Single Interest Automobile Physical Damage Insurance Policy (Individual Policy Form) **CA 26 01** or Single Interest Automobile Physical Damage Insurance Policy (Finance Master Policy Form) **CA 26 02** and mandatory Idaho Amendment Of Single Interest Policy Provisions – Cancellation Endorsement **CA 26 26** to provide single interest coverages.

277. MOTORCYCLES

Paragraph **B.7.** is replaced by the following:

B. Premium Computation

7. Uninsured Motorists

 Premium = Loss Cost * Uninsured Motorists Coverage Factor

a. Refer to Rule **297.B.** for the Loss Cost. Use the Private Passenger Types Loss Cost.

b. Uninsured Motorists Coverage Factor

<u>Factor</u>
<u>2.00</u>

Table 277.B.7.b. Uninsured Motorists Coverage Factor

| **SECTION VII – AND RATING PROCEDURES**

289. NON-OWNERSHIP LIABILITY

The following is added to Paragraph **B.2.c.:**

This coverage must be provided if the named insured is a governmental entity.

297. UNINSURED MOTORISTS INSURANCE

The following is added to Rule **297.**:

A. Application

1. Uninsured And Underinsured Motorists Bodily Injury Coverage

- a. Uninsured And Underinsured Motorists Bodily Injury Coverage must be provided.
- b. Prior to the issuance of a new policy or the first renewal or replacement of an existing motor vehicle liability insurance policy, the named insured shall be provided a standard statement, approved by the director of the department of insurance, explaining in summary form Uninsured And Underinsured Motorists Bodily Injury Coverage.
- c. The named insured has the right to reject either or both of these coverages by signed, written rejection or by electronic record as authorized by the uniform electronic transactions act of the Idaho Code. Such rejection shall be effective to all other insureds and named insureds.
- d. The insurer does not have to provide Uninsured or Underinsured Motorists Bodily Injury Coverage on renewal or replacement policies when the named insured has rejected the respective coverage on the policy previously issued by the insurer or an affiliate of that insurer.
- e. Uninsured And Underinsured Motorists Coverage does not provide coverage for property damage.

2. Endorsements

- a. For Uninsured Motorists Bodily Injury Coverage, use Idaho Uninsured Motorists Coverage Endorsement **CA 31 15**. For split limits, also use Split Bodily Injury Uninsured Motorists Coverage Limits Endorsement **CA 21 02**.
- b. For Underinsured Motorists Bodily Injury Coverage, use Idaho Underinsured Motorists Coverage Endorsement **CA 31 18**. For split limits, also use Split Bodily Injury Underinsured Motorists Coverage Limits Endorsement **CA 21 51**.

B. Premium Computation

1. Identify the exposures in this jurisdiction for which coverage applies and for which a premium will be charged. Exposures include owned self-propelled vehicles and sets of registration plates not issued to a specific auto (including dealer and transporter plates).
Do not charge a premium for the following:
 - a. Trailers;
 - b. Hired and non-owned autos;
 - c. Owned vehicles which have not been assigned registration plates (such as Auto Dealers' inventory); or
 - d. Registration plates used to transport non-owned autos (such as drive-away contractors rated under Rule **69.**).
2. Determine the exposure type (Private Passenger Type or Other Than Private Passenger Type). For the purposes of this premium development, Private Passenger Types include exposures which are classified under Section **III** of this Division One or are explicitly described as Private Passenger Types elsewhere in Division One. Unless instructed otherwise, all other exposures are considered to be Other Than Private Passenger Types, even when rating for other coverages is based on Private Passenger Types.
3. For some autos, the Uninsured And Underinsured Motorists Coverage Premium Formula is given in the section for that auto. For all other autos to which the coverage applies, the following premium formula applies for each auto. Note that the additional premium in Paragraph **B.4.** may apply in either case.

Premium = Loss Cost

- a. Select the appropriate loss costs table as follows:

- (1) For Single Limits Uninsured Motorists Coverage, refer to state loss costs Table **297.B.3.a.(1)(LC)**.
- (2) For Single Limits Underinsured Motorists Coverage, refer to state loss costs Table **297.B.3.a.(2)(LC)**.
- (3) For Split Limits Uninsured Motorists Coverage, refer to state loss costs Table **297.B.3.a.(3)(LC)**. The initial limits provided are the minimum financial responsibility limits required in Idaho.
- (4) For Split Limits Underinsured Motorists Coverage, refer to state loss costs Table **297.B.3.a.(4)(LC)**.

4. For policies (other than Auto Dealers) issued to individual named insureds, charge an additional premium once for each exposure. If Uninsured Motorists Bodily Coverage is provided, do not charge the additional premium a second time for Underinsured Motorists Bodily Injury Coverage.

Additional Premium = Loss Cost

- a. Loss Cost in state loss costs Table **297.B.4.a.(LC)**.

298. DEDUCTIBLE INSURANCE

302. SUSPENSION

Paragraph **D.** is replaced by the following:

D. If the named insured is an individual and the policy covers fewer than five private passenger autos not used in business, Paragraphs **A.**, **C.** and **E.** are replaced by the following, with respect to those autos:

- 1.** Coverage may be suspended only for Liability, Medical Payments, Uninsured Motorists and Collision Coverages and only for periods of at least 30 consecutive days. Use Idaho Changes – Suspension Of Insurance – Private Passenger Autos Endorsement **CA 02 71**.
- 2.** Suspension becomes effective on the date requested by the insured. However, if the company or any of its authorized representatives receive(s) the request after the date requested by the insured, suspension becomes effective on the date the company or any of its authorized representatives receive(s) the request. The company or any of its authorized representatives must confirm the request for suspension in writing to the insured.
 - a.** The period of suspension may be changed at any time upon written agreement between the insurer and the insured for whom coverage is suspended.
 - b.** Premiums for those coverages and private passenger autos suspended shall not be charged to the insured during the period of suspension.
 - c.** The insurer is not liable for loss that occurs during the suspension period for those coverages and private passenger autos suspended.
- 3.** Suspended premium may accrue on a pro rata basis as a credit for future premium.

Table 23.B.5.c. Long-Distance Radius

Paragraph C. is replaced by the following:

C. Secondary Classification – Special Industry Class

1. Application

According to classification, combine the secondary factor in this section with the primary factor. Insert the code provided, in the 4th and 5th digit of the classification code.

2. Autos Having More Than One Use

Where more than one secondary rating factor applies, use the highest rated classification unless 80% of the use is in a lower rated activity. In that case, use the lower rated classification.

3. Trailer Types And Zone-rated Autos

a. Codes

Use the classifications and codes provided in the tables of this section.

b. Factors

All secondary factors for Trailer Types and Zone-rated Autos are zero (0.00). Do not use the factors provided in this section.

4. Truckers

Autos used to haul or transport goods, materials or commodities for another, other than autos used in moving operations.

Truckers Secondary Factor For Autos (Except Trailer Types And Zone-rated Autos)

Paragraph **D.3.** is replaced by the following:

~~— D. Special Provisions For Certain Risks~~

~~— 3. Amusement Devices (Class Code 7905)~~

~~A coverage form that covers an auto with an amusement device mounted on it must cover the operation of the amusement device. Develop the additional premium by multiplying the trucks, tractors and trailers liability base premium by the following factor. The premium is for the period of coverage and not subject to any return.~~

Factor
1.60

~~Table 23.D.3. Amusement Devices Liability Coverage Factor~~

The following is added to Paragraph ~~D.8.:~~

~~To provide additional coverages for all territories, multiply the Specified Causes of Loss premium by the following factors:~~

Coverage	Factor
Fire Only	0.35
Fire and Theft Only	0.60
Fire, Theft and Windstorm Only	0.70
Limited Specified Causes of Loss	0.85
For Stated Amount rating, refer to company.

24. TRUCKERS/MOTOR CARRIERS

Paragraph **B.2.b.(2)(e)** is replaced by the following:

- (e) Multiply the daily per trailer loss cost for the desired coverage by the appropriate physical damage factors in the following tables. For local and intermediate risks, assume that the zone of principal garaging is the same as the zone of terminal. If zone of principal garaging and zone of terminal are both in Metropolitan zones, use Table **24.B.2.b.(2)(e)(i)**. If no Metropolitan zones are involved in the rating, then use Table **24.B.2.b.(2)(e)(ii)**. If zone of garaging and zone of terminal differ, use Table **24.B.2.b.(2)(e)(iii)**. Refer to Rule **25.B.** for development of zone combinations and Rule **25.D.** for definitions of all Metropolitan and Regional zones.

Paragraph C.3. is replaced by the following:

C. Premium Determination

3. Gross Receipts Basis (Class Code 7480) Or Mileage Basis (Class Code 7490) – Liability Coverage

a. Eligibility

(1) Local truckers may be written on the gross receipts rating basis if:

(a) The risk has been in business for at least 15 months immediately preceding the effective date of the policy, and

(b) The risk is comprised of 10 or more trucks, tractors or trailers used for local trucking.

(2) Risks comprised of intermediate and/or long distance truckers only, or risks comprised of local and intermediate and/or long distance truckers, may be written on the gross receipts or mileage rating basis if:

(a) The risk has been in business for at least 15 months immediately preceding the effective date of the policy, and

(b) The risk is comprised of five or more trucks or tractors used for intermediate or long distance trucking or 10 or more trucks, tractors or trailers.

(3) A risk which principally operates trip-leased equipment must be submitted to the company for rating.

(4) A risk which otherwise qualifies but which has been in business less than 15 months may be submitted to the company to determine its eligibility.

(5) The policy must cover the insured for all the owned and hired trucks, tractors and trailers used in the insured's trucking operations. The policy may also cover either private passenger autos or non-ownership liability or both.

b. Definition

(1) Gross receipts means the total amount earned by the insured for shipping or transporting property.

(2) Mileage means the total live (laden) and dead (unladen) mileage of all autos during the policy period.

(3) Gross receipts include:

(a) The total amount received from the rental of equipment from the insured, with or without drivers, to any person or organization not engaged in the business of transporting property for hire by auto, and

(b) .15 of the total amount received from the rental of equipment from the insured, with or without drivers, to any person or organization engaged in the business of transporting property for hire by auto.

(4) Mileage includes:

(a) The total mileage developed from the rental of equipment from the insured, with or without drivers, to any person or organization not engaged in the business of transporting property for hire by auto, and

(b) .15 of the mileage developed from the rental of equipment from the insured, with or without drivers, to any person or organization engaged in the business of transporting property for hire by auto.

(5) Gross receipts do not include:

(a) Amounts paid to air, sea or land carriers operating under their own permits.

(b) Taxes collected as a separate item and paid directly to the government.

(c) C.O.D. collections for cost of merchandise including collection fees.

(d) Warehouse storage charges.

(e) Advertising revenue.

(6) These definitions apply whether shipment originates with the insured or some other carrier.

c. Premium Development

(1) The rating rules that apply in the headquarters location of the risk shall govern the rating of all operations regardless of location. Headquarters means the address given to the Federal Motor Carrier Safety Administration or any state administrative authority as the principal business address of the risk.

(2) Using the current manual loss costs, develop an average total policy specified car premium for all equipment owned and term-leased as of both 12 months and as of three months prior to the effective date of the policy. Also, include the total premium for other coverages such as nonownership liability and hired auto if the policy provides such coverages.

Also include in the average total policy premium, the premium generated by trucks, tractors and trailers that are rented to any person or organization engaged in the business of transporting property for hire under long-term contracts. Compute this additional premium by multiplying the loss costs that otherwise apply during the period of rental, provided the autos are identified and so designated, by the following factor:

Factor
.15

Table 24.C.3.c.(2) Long-term Hire Factor

(3) Divide the average total policy specified car premium from Paragraph (2) by the gross receipts or mileage developed during the 12-month period ending three months prior to the effective date of the policy.

(4) Convert this amount into a rate per \$100 of gross receipts or per mile of operation.

(5) Compute the advance premium by multiplying the rate per \$100 of gross receipts or per mileage of operation by the estimated total gross receipts (in hundreds) or mileage for the policy period for all autos including those trip-leased.

(6) Compute the earned premium by multiplying the rate per \$100 of gross receipts or per mileage of operation by the audited total gross receipts (in hundreds), whether or not collected, or the audited total mileage, live (laden) or dead (unladen), developed during the policy period.

(7) The following example uses hypothetical specified car premiums for illustrative purposes only:

Gross Receipts Basis:

(a) Total policy specified car premium 12 months prior to the effective date: \$1,500,000

(b) Total policy specified car premium three months prior to the effective date: \$1,400,000

(c) Average total policy specified car premium: \$1,450,000

(d) Total annual gross receipts three months prior to effective date: \$10,000,000

(e) $\$1,450,000 / 10,000,000 = \$.145$

(f) $\$.145 \times 100 = \14.50 (rate per \$100 of gross receipts)

(g) Total audited gross receipts: \$15,000,000

(h) $\$14.50 \times 150,000 = \$2,175,000$ (earned premium)

(8) The following example uses hypothetical specified car premiums for illustrative purposes only:

Mileage Basis:

(a) Total policy specified car premium 12 months prior to the effective date: \$1,500,000

(b) Total policy specified car premium three months prior to the effective date: \$1,400,000

(c) Average total policy specified car premium: \$1,450,000

(d) Total annual mileage three months prior to effective date: 5,000,000

(e) $1,450,000 / 5,000,000 = \$.29$ (rate per mile)

(f) Total audited mileage: 6,500,000

(g) $\$.29 \times 6,500,000 = \$1,885,000$ (earned premium)

d. Medical Payments

If the policy provides medical payments, compute the premium by multiplying the \$100,000 limit liability premium and minimum premium by the following factors:

Limits	\$500	\$1000	\$2000	\$5000
	.037	.044	.050	.059

39. PREMIUM DEVELOPMENT – OTHER THAN ZONE-RATED AUTOS

Paragraphs **B.2.** and **B.3.** are replaced by the following:

— **B. Determination Of Classification Rating Factor And Class Code**

- **2.** Determine the primary classification code and rating factor from Rule **40.** based on use class and radius class. For van pools and limousines, the rating factor is based on seating capacity.
- **3.** Except for taxicabs, paratransits, car service, van pools and limousines (other than airport limousines), determine the secondary classification code and rating factor from Rule **40.** based on the seating capacity.

Paragraph **C.2.b.** is replaced by the following:

— **C. Premium Computation**

— **2. Liability, Basic No-fault And Medical Payments Coverages**

- **b.** For fleets, multiply the result by the following factors:

Vehicle Type	Factor

40. PUBLIC AUTO CLASSIFICATIONS

Paragraphs **D.2.** and **D.3.** are replaced by the following:

~~D. Primary Classifications~~

~~2. Use Class~~

~~a. Taxicab~~

~~A metered or unmetered auto, other than a Car Service or Limousine, with a seating capacity of eight or less that is operated for hire by the named insured or an employee, but does not pick up, transport or discharge passengers along a route. The auto must be licensed by the appropriate licensing authority, as required by law, based on the territory of operation. A Taxicab — Owner-driver means an individual owner of a single taxicab operated by the individual owner or spouse.~~

~~b. Car Service~~

~~An unmetered auto, other than a Taxicab or Limousine, with a seating capacity of eight or less that is operated for hire by the named insured or an employee, and operates from a central base station. The auto must be licensed by the appropriate licensing authority, as required by law, based on the territory of operation.~~

~~c. Limousine~~

~~An unmarked luxury auto, other than a Taxicab or a Car Service, that is operated for hire by the named insured or an employee, and is used on a pre-arranged basis for special or business functions, weddings, funerals or similar purposes. The auto and driver must be in attendance at the beginning and end of the function, and the auto must be licensed by the appropriate licensing authority, as required by law, based on the territory of operation.~~

~~d. School Bus~~

~~An auto that carries students or other persons to and from school or any school activity including games, outings and similar school trips.~~

~~(1) Separate codes and rating factors apply to:~~

~~(a) School buses owned by political subdivisions or school districts.~~

~~(b) All others, including independent contractors, private schools and church-owned buses.~~

~~(2) A policy covering a school bus may be written on an annual term for liability and collision coverages with premium prorated to reflect the actual school term. However, do not give credit for Saturdays, Sundays or holidays or for any other periods of lay-up during the school term.~~

~~(3) If a publicly owned school bus is used for special trips unrelated to school activities, refer to company for additional charge.~~

~~e. Church Bus~~

~~An auto used by a church to transport persons to or from services and other church-related activities. This classification does not apply to public autos used primarily for daily school activities.~~

~~f. Inter-city Bus~~

~~An auto that picks up and transports passengers on a published schedule of stops between stations located in two or more towns or cities.~~

~~g. Urban Bus~~

~~An auto that picks up, transports and discharges passengers at frequent local stops along a prescribed route. This classification applies only to vehicles operated principally within the limits of a city or town and communities contiguous to such city or town, and includes scheduled express service between points on that route.~~

~~h. Airport Bus Or Airport Limousine~~

~~An auto for hire that transports passengers between airports and other passenger stations or motels.~~

~~i. Charter Bus~~

~~An auto chartered for special trips, touring, picnics, outings, games and similar uses.~~

~~j. Sightseeing Bus~~

~~An auto accepting individual passengers for a fare for sightseeing or guided tours, making occasional stops at certain points of interest and returning the passengers to the point of origin.~~

~~k. Transportation Of Athletes And Entertainers~~

~~An auto owned by a group, firm or organization that transports its own professional athletes, musicians or other entertainers.~~

~~(1) If it is used to transport other professional athletes or entertainers, rate as a charter bus.~~

~~(2) An auto owned by a group, firm or organization to transport its own non-professional athletes, musicians or entertainers, rate as a public auto not otherwise classified.~~

~~**l. Van Pools**~~

~~An auto of the station wagon, van, truck or bus type used to provide prearranged commuter transportation for employees to and from work and is not otherwise used to transport passengers for a charge.~~

~~**(1) Employer Furnished Transportation**~~

~~Transportation is held out by the employer as an inducement to employment, a condition of employment or is incident to employment.~~

~~**(a) Employer Owned Autos**~~

~~Autos owned, or leased for one year or more, by an employer and used to provide transportation only for his employees.~~

~~**(b) Employee Owned Autos**~~

~~Any employee owned autos meeting the eligibility requirements of employer furnished transportation are considered as Van Pools — All Other.~~

~~**(2) All Other**~~

~~Autos which do not meet the eligibility requirements of Paragraph (1).~~

~~**m. Transportation Of Employees — Other Than Van Pools**~~

~~Autos of any type used to transport employees other than in van pools.~~

~~(1) Autos owned, or leased for one year or more, by an employer and used to transport only his own employees.~~

~~(a) For private passenger autos, charge rates shown in the state company rates/ISO loss costs for private passenger types (Class Code 5851).~~

~~(b) For all other autos, rate as a van pool — all other (Class Code 5851).~~

~~(2) Autos owned, or leased for one year or more, by a person or organization who is in the business of transporting employees of one or more employers. Rate as public auto not otherwise classified.~~

~~**n. Paratransit**~~

~~A non-emergency auto specially equipped to transport sick, elderly or handicapped individuals and that does not follow fixed routes or fixed schedules. The auto must be licensed by the appropriate licensing authority, as required by law, based on the territory of operation. This classification includes, but is not limited to, autos that may be otherwise known as Ambulettes and Medicars.~~

~~**o. Social Service Agency Auto**~~

~~An auto used by a government entity, civic, charitable or social service organization to provide transportation to clients incident to the social services sponsored by the organization, including special trips and outings.~~

~~(1) This classification includes, for example, autos used to transport:~~

~~(a) Senior citizens or other clients to meal centers, medical facilities, social functions and shopping centers;~~

~~(b) Handicapped persons to work or rehabilitative programs;~~

~~(c) Children to day care centers and Head Start programs; and~~

~~(d) Boy Scout or Girl Scout groups to planned activities.~~

~~(2) The following autos are eligible for this classification:~~

~~(a) Autos owned, or leased for one year or more, by the social service agency.~~

~~(b) Autos donated to the social service agency without a driver.~~

~~(c) Autos hired under contract by the social service agency.~~

~~(3) This classification does not include Paratransits.~~

~~(4) If an auto has more than one use, use the highest rated classification unless 80% of the use is in a lower rated activity. In that case, use the lower rated classification.~~

~~(5) Separate codes and rating factors apply to:~~

~~(a) Employee operated autos operated by employees of the social service agency. If a social service auto is also operated by volunteer drivers or other non-agency employees, use the All Other classification unless 80% of the use is by agency employees.~~

~~(b) All other autos which do not meet the requirements of Paragraph (a).~~

~~(6) Excess liability coverage may be provided to cover autos not owned or licensed by the agency while being used in its social service transportation activities. This coverage may be extended to cover the agency's liability only or the liability of both the agency and, on a blanket basis, the individual liability of agency employees or volunteer donors or owners of the autos. For autos hired, loaned, leased or furnished, refer to Rule 90. For all other non-owned autos, refer to Rule 89.~~

p. Public Auto Not Otherwise Classified

This classification includes, but is not limited to, autos such as country club buses, cemetery buses, real estate development buses and courtesy buses run by hotels.

3. Non-fleet And Fleet Primary Classifications – Rating Factors And Statistical Codes For Local, Intermediate And Long-Distance Radius

a. Public Auto Use Classes (Except Van Pools)

Rate the following classifications using the base loss cost for the corresponding category. For example, multiply the Car Service factors by the Taxicabs and Limousines base loss costs.

E. Secondary Classifications

These classifications do not apply to taxicabs, limousines (except airport limousines), car service, paratransits, van pools and zone-rated autos. According to classification, combine the secondary factor in this section with the primary factor. Insert the code provided in the fourth digit of the classification code.

C. Premium Development

2. Liability And Basic No-fault Coverages

- d.** For public autos that are equipped with a mechanical lift and that have Liability Coverage, Medical Payments Coverage or Basic No-fault Coverage, multiply the result by the following factor:

Factor
1.10

Table 41.C.2.d. Mechanical Lift Factor

70. FINANCED AUTOS

Paragraph **A.** is replaced by the following:

— **A. Application**

~~Write financed autos at manual rates and minimum charges except for single interest coverage. Use Single Interest Automobile Physical Damage Insurance Policy (Individual Policy Form) **CA 26 01** or Single Interest Automobile Physical Damage Insurance Policy (Finance Master Policy Form) **CA 26 02** and mandatory Endorsement **CA 26 26**, Idaho Amendment Of Single Interest Policy Provisions — Cancellation, to provide single interest coverages.~~

~~89. NON-OWNERSHIP LIABILITY~~

The following is added to Paragraph **~~B.2.b.(1)~~**:

This coverage must be provided if the named insured is a governmental entity.

97. UNINSURED MOTORISTS INSURANCE

The following is added to Rule 97.:

~~—~~ **A. Application**

~~—~~ **1. Uninsured And Underinsured Motorists Bodily Injury Coverage**

- ~~—~~ **a.** Uninsured and Underinsured Motorists Bodily Injury Coverage must be provided.
- ~~—~~ **b.** Prior to the issuance of a new policy or the first renewal or replacement of an existing motor vehicle liability insurance policy, the named insured shall be provided a standard statement, approved by the director of the department of insurance, explaining in summary form Uninsured and Underinsured Motorists Bodily Injury Coverage.
- ~~—~~ **c.** The named insured has the right to reject either or both of these coverages by signed, written rejection or by electronic record as authorized by the uniform electronic transactions act of the Idaho Code. Such rejection shall be effective to all other insureds and named insureds.
- ~~—~~ **d.** The insurer does not have to provide Uninsured or Underinsured Motorists Bodily Injury Coverage on renewal or replacement policies when the named insured has rejected the respective coverage on the policy previously issued by the insurer or an affiliate of that insurer.
- ~~—~~ **e.** Uninsured and Underinsured Motorists Coverage do not provide coverage for property damage.

~~—~~ **2. Endorsements**

- ~~—~~ **a.** For Uninsured Motorists Bodily Injury Coverage, use Idaho Uninsured Motorists Coverage Endorsement **CA 31-15**. For split limits, also use Split Bodily Injury Uninsured Motorists Coverage Limits Endorsement **CA 21-02**.
- ~~—~~ **b.** For Underinsured Motorists Bodily Injury Coverage, use Idaho Underinsured Motorists Coverage Endorsement **CA 31-18**. For split limits, also use Split Bodily Injury Underinsured Motorists Coverage Limits Endorsement **CA 21-51**.

~~—~~ **B. Premium Development**

- ~~—~~ **1.** Select the appropriate loss costs table as follows:
 - ~~—~~ **a.** For single limits Uninsured Motorists Coverage, refer to state loss costs Table **97.B.1.a.(LC)**.
 - ~~—~~ **b.** For single limits Underinsured Motorists Coverage, refer to state loss costs Table **97.B.1.b.(LC)**.
 - ~~—~~ **c.** For split limits Uninsured Motorists Coverage, refer to state loss costs Table **97.B.1.c.(LC)**. The initial limits provided are the minimum financial responsibility limits required in Idaho.
 - ~~—~~ **d.** For split limits Underinsured Motorists Coverage, refer to state loss costs Table **97.B.1.d.(LC)**.
- ~~—~~ **2.** Identify the exposures in this jurisdiction for which coverage applies and a premium will be charged. Exposures include owned self-propelled vehicles and sets of registration plates not issued to a specific auto (including dealer and transporter plates):
 - ~~—~~ **a.** Separately determine the premium for each such exposure as follows:
 - ~~—~~ **(1)** Determine the exposure type (Private Passenger Type or Other Than Private Passenger Type). For the purposes of this premium development, Private Passenger Types include exposures which are classified under Section III of this division or are explicitly described as Private Passenger Types elsewhere in this division. Unless instructed otherwise, all other exposures are considered to be Other Than Private Passenger Types, even when rating for other coverages is based on Private Passenger Types.
 - ~~—~~ **(2)** Within the appropriate loss costs table (single or split limits), locate the column corresponding to the exposure type determined in Paragraph **B.2.a.(1)**.
 - ~~—~~ **(3)** From within this column, determine the appropriate loss cost based on the desired limit of coverage.
 - ~~—~~ **(4)** For policies (other than Auto Dealers) issued to individual named insureds, add the amount shown in state loss costs Table **97.B.2.a.(4)(LC)**.
 - ~~—~~ **(5)** Refer to the rules applicable to the exposure elsewhere in this division for additional premium development instructions, if any.
 - ~~—~~ **b.** Primary, secondary, fleet, operator experience and use rating factors do not apply.
 - ~~—~~ **c.** Do not charge a premium for the following:
 - ~~—~~ **(1)** Trailers;
 - ~~—~~ **(2)** Hired and non-owned autos;
 - ~~—~~ **(3)** Owned vehicles which have not been assigned registration plates (such as Auto Dealers' inventory); or

~~(4) Registration plates used to transport non-owned autos (such as drive-away contractors rated under Rule 69).~~

~~d. If Uninsured Motorists Bodily Coverage is provided, do not apply the charge in Table 97.B.2.a.(4)(LC) for Underinsured Motorists Bodily Injury Coverage.~~

98. DEDUCTIBLE INSURANCE

Paragraphs **A.1.** and **A.2.** are replaced by the following:

A. Liability Coverages

1. Compute the premium by multiplying the full coverage \$100,000 bodily injury and property damage liability premium by the factor selected as follows:

Deductible Amount	Combined Single Limit		Property Damage Per Accident	
	Non-zone Rated	Zone-rated	Non-zone Rated	Zone-rated
\$ 250	0.984	0.990	0.985	0.991

Table 98.A.1. Liability Deductible Factors

2. The following example uses hypothetical loss costs and increased limits factors for a zone-rated risk for illustrative purposes only. You should determine from your individual companies what rates/loss costs and increased limits factors are actually in effect.

\$500,000 bodily injury and property damage liability limit with a \$1,000 zone-rated combined single limit deductible.

- a. Premium for \$100,000 full coverage — \$2,000.
- b. \$1,000 deductible factor — .963.
- c. Premium for \$100,000 limit with a \$1,000 deductible — $(\$2,000 \times .963) = \$1,926$.
- d. Increased limit factor for \$500,000 limit — 1.53.
- e. Increment factor over \$100,000 limit — .53.
- f. Dollar increment amount — $(\$2,000 \times .53) = \$1,060.00$.
- g. Premium for \$500,000 bodily injury and property damage liability with a \$1,000 deductible — $(\$1,926.00 \text{ plus } \$1,060.00) = \$2,986.00$.
- h. For deductibles not shown, refer to company.

Paragraph **B.** is replaced by the following:

B. Physical Damage Coverages

Compute the premiums as follows. If a deductible applicable to only Theft, Mischief Or Vandalism is selected for Specified Causes Of Loss Coverage, refer to company. For stated amount rating, refer to Rule **101**. At the option of the insured, the comprehensive deductible provisions may be made inapplicable to safety glass breakage. Use Full Safety Glass Coverage Endorsement **CA 04 21**.

1. Private Passenger Types, Trucks, Tractors And Trailers And All Autos Except Zone-rated Risks

a. Computation Procedures

- (1) Determine the base loss cost.
- (2) Use Rule **101**. to determine the factor for the age group of the auto being rated. For exposures rated on a stated amount basis, the Age Group factor is always 1.00.
- (3) Multiply the base loss cost by the Age Group factor.
- (4) Use Rule **101**. to determine the factor for the original cost new of the auto being rated.
- (5) Subtract the applicable factor for the deductible desired from the Original Cost New factor.

~~(6) Multiply the result of Paragraph **B.1.a.(3)** by the result of Paragraph **B.1.a.(5)**. Alternatively, the following equation will give the appropriate loss cost for every desired deductible:~~

~~Base loss cost x Age Group factor from Rule **101**. x (Original Cost New factor – deductible factor from Rule **98**).~~

~~(7) If the deductible factor is greater than the Original Cost New factor, refer to company.~~

101. PHYSICAL DAMAGE COVERAGE RATING PROCEDURES

Paragraph A.4. is replaced by the following:

A. Actual Cash Value Premiums

4. Premium Computation

a. Base Premium Development

The physical damage base loss costs do not include the application of the following factors necessary to reflect the applicable original cost new and age group. Thus, in order to develop the base premium:

- Multiply the base loss cost for the desired Physical Damage Coverage by the appropriate Original Cost New factor, then
- Multiply the result by the appropriate Age Group factor.

(1) Trucks, Tractors And Trailers And Public Autos

65001 – 90000	1.70	2.60
Each Additional \$1000 over \$90000*	0.007	0.025

* For autos with an original cost new in excess of \$90000:

- (i) Subtract 90000 from the original cost new.
- (ii) Divide the result by 1000.
- (iii) Multiply by the appropriate "Each Additional \$1000 over \$90000" factor.
- (iv) Add the result to the appropriate 65001 – 90000 factor.

b. Deductibles

For deductibles not shown in the state company rates/ISO loss costs, refer to Rule 98.

102. SUSPENSION

Paragraph ~~D.~~ is replaced by the following:

- ~~D.~~ If the named insured is an individual and the policy covers fewer than five private passenger autos not used in business, Paragraphs ~~A.~~, ~~C.~~ and ~~E.~~ are replaced by the following, with respect to those autos:
 - ~~1.~~ Coverage may be suspended only for Liability, Medical Payments, Uninsured Motorists and Collision Coverages and only for periods of at least 30 consecutive days. Use Idaho Changes — Suspension Of Insurance — Private Passenger Autos Endorsement **CA 02 71**.
 - ~~2.~~ Suspension becomes effective on the date requested by the insured. However, if the company or any of its authorized representatives receives the request after the date requested by the insured, suspension becomes effective on the date the company or any of its authorized representatives receives the request. The company or any of its authorized representatives must confirm the request for suspension in writing to the insured.
 - ~~a.~~ The period of suspension may be changed at any time upon written agreement between the insurer and the insured for whom coverage is suspended.
 - ~~b.~~ Premiums for those coverages and private passenger autos suspended, shall not be charged to the insured during the period of suspension.
 - ~~c.~~ The insurer is not liable for loss that occurs during the suspension period, for those coverages and private passenger autos suspended.
 - ~~3.~~ Suspended premium may accrue on a pro rata basis as a credit for future premium.
