WISCONSIN SUPPLEMENT TO THE COMMERCIAL AUTO 2022 MULTISTATE RULES FILING PROVIDED AND TO BE IMPLEMENTED

KEY MESSAGE

Rules supplement to filing CA-2022-RCP1 in Wisconsin is provided and being implemented.

This supplement complements the multistate rules filing, which is attached to circular LI-CA-2022-113.

Effective Date: 12/01/2023

BACKGROUND

In circular [LI-CA-2022-113](#), we announced the filing of multistate rules filing CA-2022-RCP1 and advised that we would be submitting state-specific rules supplements in all ISO Jurisdictions.

INSURANCE DEPARTMENT ACTION

We have received all necessary approvals or acknowledgements, as required by state laws and regulations, from the insurance department in Wisconsin.

Note: The announcement of implementation in a particular jurisdiction includes the implementation of the multistate filings and any state supplement and/or amendment filing.

ISO ACTION

We are providing and implementing the attached Wisconsin rules supplement to multistate filing CA-2022-RCP1.

Refer to the attached explanatory material for complete details about the filing.

EFFECTIVE DATE

The ISO revision is subject to the following rule of application:

These changes are applicable to all policies written on or after December 1, 2023.

IMPACT ON STATISTICAL REPORTING

ISO has reviewed the statistical reporting impact of this filing. A Statistical Plan Holders circular, [SP-CA-2022-001](#) entitled '2022 Commercial Automobile Multistate Coding Established' was released on May 9, 2022. Revisions to statistical reporting include numerous changes and the establishment of a new field, Financial Responsibility Surcharge Indicator Code. For statistical reporting purposes, all the changes in this circular will be effective for transactions with inception dates of October 1, 2023 and subsequent on a mandatory basis.

COMPANY ACTION

If you have authorized us to file on your behalf and decide:

- To use our revision and effective date, you are not required to file anything with the Insurance Department.
- To use our revision with a different effective date, to use our revision with modification, or to not use our revision, you must make an appropriate submission with the Insurance Department.

For guidance on submission requirements, consult the ISO State Filing Handbook.

WE WILL SUBMIT THIS REVISION TO THE INSURANCE DEPARTMENT ON NOVEMBER 21, 2023. IF STATE FILING REQUIREMENTS DICTATE THAT YOU MAKE A SUBMISSION WITH THE INSURANCE DEPARTMENT, DO NOT SUBMIT IT PRIOR TO THIS DATE.

In all correspondence with the Insurance Department on this revision, you should refer to ISO Filing Number CA-2022-RCP1 and SERFF Tracking Number ISOF-133216558, NOT this circular number. Communications with the regulator concerning a filing affecting multiple lines of business (i.e., CL, PL, AL filing designation) should specify the line(s) of business that you are addressing.

RATING SOFTWARE IMPACT

Refer to circular [LI-CA-2022-113](#) for impact of the rules multistate filing.

POLICYHOLDER NOTIFICATION

If you decide to implement this revision, you should check all applicable laws for the state(s) to which this revision applies, to determine whether or not a specific policyholder notice requirement may apply. Please note that circular [LI-CL-2022-006](#) contains the ISO Guide To Renewals With Changed Conditions For Commercial Lines, which is available only as a guide to assist participating companies in complying with various conditional renewal statutes or regulations, for the major commercial lines of insurance serviced by ISO. The information in the Guide does not necessarily reflect all requirements or exceptions that may apply, and it is not intended as a substitute for your review of all applicable statutes and regulations concerning policyholder notification.

REVISION DISTRIBUTION

We will issue a Notice to Manualholders with an edition date of 12-23 (or the earliest possible subsequent date), along with any new and/or revised manual pages.

RELATED LOSS COSTS REVISION

In circular [LI-CA-2022-313](#), we are providing and implementing the corresponding loss costs supplement.

DATA QUALITY

Statistical plan data reported to ISO is first processed through a system of rigorous automated data verification procedures so that only valid data would be used for ratemaking. Subsequent to this initial data submission review, additional analyses on the statistical plan data involving an even more customized data review for this line were performed by staff. During these processes, various data records were excluded from the review. The ISO staff responsible for this circular also reviewed the data for reasonableness.

ACKNOWLEDGMENT OF ACTUARIAL QUALIFICATIONS

The American Academy of Actuaries' "Qualifications Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States" requires that an actuary issuing a Statement of Actuarial Opinion should include an acknowledgement with the opinion that he/she has met the qualification standards of the AAA. ISO considers this loss cost filing a Statement of Actuarial Opinion; therefore, we are including the following acknowledgment:

I, Daniel Traverso, am an Actuarial Associate for ISO, and I, Kevin Hughes, am an Actuarial Director for Commercial Auto for ISO. We are jointly responsible for the content of this Statement of Actuarial Opinion. We are both members of the American Academy of Actuaries and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

IMPORTANT NOTICE FOR USERS OF ISO PRODUCTS AND SERVICES

Please make sure that your company has authorized your use of this product and has complied with the requirements applicable in the jurisdiction where you plan to use it.

We distribute both state-specific and multistate products and services. We do not distribute all the multistate products and services for use in every jurisdiction due to corporate policy, regulatory preference, or variations or lack of clarity in state laws.

We provide participating insurers with information concerning the jurisdictions for which our products and services are distributed. Even in those jurisdictions, each insurer must determine what filing requirements, if any, apply and whether those requirements have been satisfied.

Now, as in the past, all of our products and services are advisory, and are made available for optional use by participating insurers as a matter of individual choice. Your company must decide for itself which, if any, ISO products or services are needed or useful to its operation and how those selected for use should be applied. We urge that you be guided by the advice of your attorneys on the legal requirements.

Wisconsin Supplement To The 2022 Commercial Auto Multistate Rules Revision

About This Filing

This supplement addresses state exceptions to the ISO Commercial Lines Manual Division One – Automobile – Multistate Rules ("multistate manual") to complement the changes being made in the multistate portion of this filing. Due to the large volume of material in the filing, we provide a table below indicating, by rule number, what type of change has been made. Changes are broadly categorized as follows:

- ◆ No Change: In these rules the only change is the rule number itself and updates to the references of other rules.
- ◆ Clarified Meaning: In these rules, we have altered the language to make the instructions easier to understand and implement. However, there is no change made to the substance of the rating instruction.
- ◆ Rating Change: In these rules the advisory rating instructions have changed.
- ◆ Deleted: These rules are deemed no longer necessary.
- ◆ New Rule: These rules do not have a corresponding old rule.

Related Filing(s)

The following companion filings will be implemented concurrently with this filing:

- ♦ CA-2022-RLC1 (Loss Costs)

Background

In the multistate portion of this filing, we are withdrawing existing rules and replacing them with similar content in new rules, with the rule number from the standard manual incremented by 200. For example, Rule 212 contains the content corresponding to former Rule 12.

Explanation of Changes

The following state exceptions are being added, revised or withdrawn to correspond with the changes being made in the multistate portion of this filing. The explanations for these changes are described on the following pages, organized by the new rule number:

Rule **222**. Premium Development – Other Than Zone-Rated Autos

The fleet factors have been replaced by the fleet size factors used in the Optional Class Plan rating.

Rule **223**. Trucks, Tractors and Trailers Classifications

The primary and secondary classification tables have been updated to match the Optional Class Plan rating. The paragraph regarding Amusement Devices has been moved to multistate Rule **222**. The additional coverage factors have a new designated home in Rule **308**.

Rule 224. Truckers/Motor Carriers

This exception contains the Zone Combinations Factors only. The paragraph on premium determination now resides in the multistate Rule **224**.

Rule 225. Premium Development – Zone-Rated Autos

The fleet factor has been replaced by a fleet size factor, but the values have not changed. We are expanding the table structure here and elsewhere to set it up for a future experience-based review.

The primary and secondary classification tables for zone-rated vehicles now reside in this rule.

Rule 231. Eligibility

The classification codes and Optional Class Plan rating factors for Private Passenger Types now reside in the state exception to Rule **231**.

Rule 232. Private Passenger Types Classifications

The fleet size factors used in the Optional Class Plan rating now reside in the state exception to Rule **232**.

Rule 239. Premium Development – Other Than Zone-Rated Autos

The fleet factor has been replaced by a fleet size factor, but the values have not changed. We are expanding the table structure here and elsewhere to set it up for a future experience-based review. The Mechanical Lift Factor has been moved to the multistate Rule **239**.

Rule 240. Public Auto Classifications

The paragraph on Primary Classifications resides in the multistate Rule **240**, since most states share this language. The state exception to Rule **240**, now only contains the classifications that differ from the multistate rule. The additional coverage factors have a new designated home in Rule **308**.

Rule 241. Premium Development – Zone-Rated Autos

The state exception for Rule **41**, is no longer needed since the Mechanical Lift Factor has been moved to the multistate Rule **239**.

Rule 242. Gross Receipts Or Mileage Basis

The state exception for Rule **42**, is no longer needed. For classes that use a Liability base loss cost to rate Medical Payments, there is now a single table containing the necessary relativities in Rule **292**.

Rule 249. Auto Dealers – Premium Development For Common Coverages

The Medical Payments Limit Factors now reside in Rule **292**.

Rule 268. Driver Training Programs And Auto Repair Training

The Medical Payments Limit Factors now reside in Rule **292**.

Rule 277. Motorcycles

The Uninsured Motorists premium computation instructions previously resided in the multistate Rule **277**, but have been moved to the state exception pages.

Rule 280. Snowmobiles

This state exception is no longer necessary due to the updates in the multistate rule.

Rule 281. Mobile Or Farm Equipment

We converted the premium computation instructions to our new standard format.

Rule 289. Non-Ownership Liability

This state exception has been added to provide Uninsured Motorists and Medical Payments premium computation instructions in our new standard format.

Rule 290. Hired Autos

This state exception has been added to provide Uninsured Motorists and Medical Payments premium computation instructions in our new standard format.

Rule 292. Medical Payments

For classes that use a Liability base loss cost to rate Medical Payments, there is now a single table containing the necessary relativities.

We reviewed the relativity relating Liability to Medical Payments in filing CA-2019-BRLA1. However, although that review changed how we compute the loss cost page, some relativities expressed as factors in the Rules were not updated at that time, and we are taking the opportunity to align the factors with the most recent experience review. Specifically:

- Non-owned Autos and Driving Schools use the new Private Passenger Types relativity.
- Zone-Rated Autos and Hired Mobile Equipment and Farm Equipment use the new Trucks, Tractors and Trailers relativity.
- Hired Auto uses a weighted average of the two, using the same 17% and 83% weights that were previously used to develop the factors in filing CA-2011-OMPL1.

Rule 297. Uninsured Motorists Insurance

We converted the premium computation instructions to our new standard format.

Rule 298. Deductible Insurance

Liability Deductibles will now be priced with a Deductible Discount Factor that is subtracted from the Increased Limits Factor. This is a change in presentation only and is mathematically equivalent to the prior approach. The factor tables that previously existed in Rule 98. and Rule 298. now reside in the state exceptions.

We have introduced higher deductible amounts for the Other Than Collision coverages. The support for this update was provided in the multistate rules revision filed in 2019 with ISO filing designation CA-2019-RRU19.

Rule 301. Vehicle Age and Price Bracket

We have changed the name of this rule to reflect its focus on Vehicle Age and Price Bracket Rating. These rating variables are now used for both Liability and Physical Damage.

Rule 308. Physical Damage Coverages

This rule was introduced to house some physical damage content that previously resided elsewhere. The factors in section A used to be in Rules 23. And 25.

Important Note

Insurance Services Office, Inc. (ISO) makes available advisory services to property/casualty insurers. ISO has no adherence requirements. ISO rules and explanatory materials are intended solely for the information and use of ISO's participating insurers and their representatives, and insurance regulators. Neither ISO's general explanations of rules intent nor opinions expressed by members of ISO's staff necessarily reflect every insurer's view or control any insurer's application of manual rules.

211. POLICY CANCELLATIONS

The following is added to Rule **211.**:

D. Premium Restrictions

Pursuant to Rule Ins. 6.10 Property And Casualty Premium Restrictions as promulgated by the Commissioner of Insurance, in any policy under which an insurer may return a premium that is less than the pro rata unearned premium, the insurer shall provide the policyholder with a separate written notice that the policyholder may pay a substantial penalty if the policyholder cancels the policy prior to its expiration date; no insurer may return a premium that is less than the pro rata unearned premium until at least 10 days after the insurer mails or delivers this written notice to the policyholder.

212. FORMS PORTFOLIO REFERENCE

The following is added to Paragraph **B.:**

The following endorsements are mandatory and must be attached to all Commercial Auto Coverage Parts:

1. Wisconsin Changes Endorsement **CA 01 17**

2. Wisconsin Changes – Cancellation And Nonrenewal Endorsement **IL 02 83**

215. INDIVIDUAL RISK SITUATIONS

Paragraph **B.1.b.** is replaced by the following:

- b.** The coverage to be written is materially broader or more restrictive than the coverage upon which the manual rate is based; or

Note

To the extent that forms filing requirements apply, they must be followed.

Paragraph **C.** is replaced by the following:

C. Filing Obligations

When a particular risk is modified in accordance with Paragraphs **B.1.a.** or **B.1.c.**, companies should file such modifications with the state regulator and comply with any applicable regulatory requirements. For all other sections of Rule **215.**, companies should maintain a complete file, including all details of the factors used in determining the modification and make the file available to state regulators on request. Such modifications need not be filed with the state regulator.

218. RATING TERRITORIES

Paragraph **A.3.** is replaced by the following:

A. Territory Determination

- 3.** If the manual refers to this paragraph to determine rating territory, use Territory 102 when the address of the named insured is located in this jurisdiction.

222. PREMIUM DEVELOPMENT – OTHER THAN ZONE-RATED AUTOS

The following is added to Paragraph B.1.:

281. MOBILE OR FARM EQUIPMENT

The following is added to Paragraph **D.**:

D. Cost Of Hire Basis

3. Uninsured Motorists Coverage

 Premium = Cost Of Hire * Loss Cost * Cost Of Hire Basis Liability And Basic No-fault Coverage Factor / 100

a. Refer to Paragraph **D.1.b.** for instructions on calculating the cost of hire.

b. Refer to Rule **297.B.** for the Loss Cost. Use the Hired Autos Per \$100 Cost Of Hire Loss Cost.

c. Refer to Paragraph **D.1.c.(4)** for the Cost Of Hire Basis Liability And Basic No-fault Coverage Factor. Use the Liability And Medical Payments Factor.

289. NON-OWNERSHIP LIABILITY

The following is added to Paragraph **A.**:

A. Eligibility

- 3.** When Non-ownership Liability Coverage is provided, Uninsured Motorists Bodily Injury Coverage must also be provided for the non-owned autos. Charge a premium as follows for each employee of the insured at all locations in this state.

 Premium = Loss Cost

- a.** Refer to the tables listed in Rule **297.B.4.a.(LC)** by limit type and coverage for the Loss Cost.

- 4.** When both Non-ownership Liability Coverage and Medical Payments Coverage are provided, Medical Payments Coverage must be provided for the non-owned autos. Charge a premium as follows for this coverage.

 Premium = Loss Cost * Medical Payments Liability Factor * Medical Payments Limit Factor

- a.** Refer to Table **289.B.2.a.(1)(a)(LC)** for the Loss Cost. Use the Loss Cost for 0 – 9 Employees.
b. Refer to Table **292.B.** for the Medical Payments Liability Factor.

- d.** Compute the Hired Auto Medical Payments Premium as follows:

$$\text{Premium} = \text{Loss Cost} * \text{Estimated Annual Cost of Hire} * \text{Hired Auto Liability Coverage Factor} * \text{Medical Payments Liability Factor} * \text{Medical Payments Limit Factor} / 100$$

- (1)** Refer to Table **290.B.3.a.(1)(LC)** for the Loss Cost.

- (2)** Use the same cost of hire used to compute the liability premium. Include, where applicable, the cost of hire for any hired autos used for trucking or motor carrier operations rated with Rule **224**.

- (3)** Refer to Table **290.B.3.a.(3)** for the Hired Auto Liability Coverage Factor.

- (4)** Refer to Table **292.B.** for the Medical Payments Liability Factor.

- (5)** Refer to Table **292.C.** for the Medical Payments Limit Factor.

- e.** Compute the Hired Auto Uninsured Motorists Bodily Injury Coverage Premium as follows:

$$\text{Premium} = \text{Loss Cost} * \text{Estimated Annual Cost of Hire} / 100$$

- (1)** Refer to the tables listed in Rule **297.B.4.a.(LC)** for the Loss Cost.

- (2)** Use the same cost of hire used to compute the liability premiums for all applicable autos.

292. MEDICAL PAYMENTS

Paragraph **A.** is replaced by the following:

A. Medical Payments Coverage

1. Auto Medical Payments Coverage must be provided at a limit of at least \$1,000 on all vehicles designed for travel on public roads and subject to motor vehicle registration under Chapter 341, which includes trailers and semitrailers designed for use with such vehicles. Auto Medical Payments Coverage is not required for the following:
 - a. Farm Tractors;
 - b. Well Drillers;
 - c. Road Machinery; or
 - d. Snowmobiles.
2. A named insured has the right to reject this coverage. Unless a named insured requests such coverage in writing, the insurer does not have to provide Auto Medical Payments Coverage on a renewal policy when a named insured has rejected the coverage on the policy previously issued by the insurer.
3. If provided, Auto Medical Payments Coverage shall apply to all vehicles on the policy, including hired and non-owned.
4. Use Wisconsin Auto Medical Payments Coverage Endorsement **CA 99 24**.

Paragraph **B.** is replaced by the following:

B. Medical Payments Liability Factors

The Medical Payments Liability Factor is used to convert Liability Loss Costs to Medical Payments \$5,000 Limit Loss Costs for certain vehicles.

<u>Vehicle Type</u>	<u>Factor</u>

Table 292.B. Medical Payments Liability Factors

297. UNINSURED MOTORISTS INSURANCE

The following is added to Rule **297.**:

A. Application

1. Uninsured Motorists Coverage

- a. Uninsured Motorists Bodily Injury Coverage must be provided on all policies at limits of at least \$25,000 per person and \$50,000 per accident.
- b. Uninsured Motorists Coverage does not provide coverage for property damage.
- c. Use Wisconsin Uninsured Motorists Coverage Endorsement **CA 21 03**. If split limits are provided, also use Split Bodily Injury Uninsured Motorists Coverage Limits Endorsement **CA 21 02**.
- d. If Liability Coverage also applies to hired or non-owned autos, Uninsured Motorists Bodily Injury Coverage must be provided for those autos.

2. Underinsured Motorists Coverage

- a. For policies that do not include Underinsured Motorists Coverage, an insurer is required to provide a written notice of the availability of Underinsured Motorists Coverage, including a brief description of the coverage to a named insured. Such notice is required only one time and in conjunction with the delivery of the policy.
- b. A named insured has the right to reject Underinsured Motorists Coverage. The rejection of such coverage shall apply to all persons insured under the policy. Rejection need not be in writing. The absence of a premium payment for Underinsured Motorists Coverage is conclusive proof that the person has rejected such coverage.
- c. Unless a named insured requests such coverage in writing, the insurer does not have to provide Underinsured Motorists Coverage on renewal policies when a named insured has rejected the coverage on the policy previously issued by the insurer.
- d. If selected, Underinsured Motorists Coverage must be provided at limits of at least \$50,000 per person and \$100,000 per accident.
- e. Underinsured Motorists Coverage does not provide coverage for property damage.
- f. Use Wisconsin Underinsured Motorists Coverage Endorsement **CA 21 45**. If split limits are provided, also use Split Bodily Injury Underinsured Motorists Coverage Limits Endorsement **CA 21 51**.
- g. All references to Uninsured Motorists Coverage elsewhere in Division One also include Underinsured Motorists Coverage.

B. Premium Computation

- 1. After using the rating instructions that follow, do not modify the premium under any rating plan.
- 2. Identify the exposures in this jurisdiction for which coverage applies and for which a premium will be charged. Exposures include owned self-propelled vehicles and sets of registration plates not issued to a specific auto (including dealer and transporter plates). Exposures also include employees (for non-owned autos) and the cost of hire (for hired autos), but only if Liability Coverage applies to hired and/or non-owned autos.

Do not charge a premium for the following:

- a. Trailers;
- b. Owned vehicles which have not been assigned registration plates (such as Auto Dealers' inventory); or
- c. Registration plates used to transport non-owned autos (such as drive-away contractors rated under Rule **269**.).
- 3. Determine the exposure type (Private Passenger Type or Other Than Private Passenger Type). For the purposes of this premium development, Private Passenger Types include exposures which are classified under Section **III** of Division One or are explicitly described as Private Passenger Types elsewhere in Division One. Unless instructed otherwise, all other exposures are considered to be Other Than Private Passenger Types, even when rating for other coverages is based on Private Passenger Types.
- 4. For some autos, the Uninsured And Underinsured Motorists Coverage Premium Formula is given in the section for that auto. For all other autos to which the coverage applies, the following premium formula applies for each auto. Note that the additional premium in Paragraph **B.5**. may apply in either case.

Premium = Loss Cost

- a. Select the appropriate loss costs table as follows:

- (1) For Single Limits Uninsured Motorists Bodily Injury Coverage, refer to state loss costs Table **297.B.4.a.(1)(LC)**.
- (2) For Single Limits Underinsured Motorists Bodily Injury Coverage, refer to state loss costs Table **297.B.4.a.(2)(LC)**.

(3) For Split Limits Uninsured Motorists Bodily Injury Coverage, refer to state loss costs Table 297.B.4.a.(3)(LC). The initial limits provided are the minimum financial responsibility limits required in Wisconsin.

(4) For Split Limits Underinsured Motorists Bodily Injury Coverage, refer to state loss costs Table 297.B.4.a.(4)(LC). The initial limits provided are the minimum financial responsibility limits required in Wisconsin.

5. For policies (other than Auto Dealers) issued to individual named insureds, charge an additional premium once for each exposure. Do not charge the additional premium a second time for Underinsured Motorists Bodily Injury Coverage.

Additional Premium = Loss Cost

B. Physical Damage Coverages

1. Special Provisions

- At the option of the insured, the Comprehensive deductible provisions may be made inapplicable to safety glass breakage. Use Full Safety Glass Coverage Endorsement **CA 04 21**.
- For Specified Causes of Loss deductibles that apply to Theft, Mischief And Vandalism, refer to company. For Limited Other Than Collision coverages without a deductible, the Deductible Discount Factor is 0.000.
- For the Physical Damage premium computations, when the Deductible Discount Factor is subtracted from the Vehicle Value Factor, the resulting value (Vehicle Value Factor – Deductible Discount Factor) is subject to a minimum value of 0.10. If the subtraction yields a value less than the minimum, substitute 0.10 in its place.

C. Secondary Classification – Special Industry Class

1. Application

According to classification, combine the secondary factor in this section with the primary factor. Insert the code provided, in the 4th and 5th digit of the classification code.

2. Autos Having More Than One Use

Where more than one secondary rating factor applies, use the highest rated classification unless 80% of the use is in a lower rated activity. In that case, use the lower rated classification.

3. Trailer Types And Zone-rated Autos

a. Codes

Use the classifications and codes provided in the tables of this section.

b. Factors

All secondary factors for Trailer Types and Zone-rated Autos are zero (0.00). Do not use the factors provided in this section.

4. Truckers

Autos used to haul or transport goods, materials or commodities for another, other than autos used in moving operations.

Paragraph **B.2.b.(2)(e)** is replaced by the following:

- (e) Multiply the daily per trailer loss cost for the desired coverage by the appropriate physical damage factors in the following tables. For local and intermediate risks, assume that the zone of principal garaging is the same as the zone of terminal. If zone of principal garaging and zone of terminal are both in Metropolitan zones, use Table **24.B.2.b.(2)(e)(i)**. If no Metropolitan zones are involved in the rating, then use Table **24.B.2.b.(2)(e)(ii)**. If zone of garaging and zone of terminal differ, use Table **24.B.2.b.(2)(e)(iii)**. Refer to Rule **25.B.** for development of zone combinations and Rule **25.D.** for definitions of all Metropolitan and Regional zones.

Paragraph C.3. is replaced by the following:

C. Premium Determination

3. Gross Receipts Basis (Class Code 7480) Or Mileage Basis (Class Code 7490) – Liability Coverage

a. Eligibility

(1) Local truckers may be written on the gross receipts rating basis if:

(a) The risk has been in business for at least 15 months immediately preceding the effective date of the policy, and

(b) The risk is comprised of 10 or more trucks, tractors or trailers used for local trucking.

(2) Risks comprised of intermediate and/or long distance truckers only, or risks comprised of local and intermediate and/or long distance truckers, may be written on the gross receipts or mileage rating basis if:

(a) The risk has been in business for at least 15 months immediately preceding the effective date of the policy, and

(b) The risk is comprised of five or more trucks or tractors used for intermediate or long distance trucking or 10 or more trucks, tractors or trailers.

(3) A risk which principally operates trip leased equipment must be submitted to the company for rating.

(4) A risk which otherwise qualifies but which has been in business less than 15 months may be submitted to the company to determine its eligibility.

(5) The policy must cover the insured for all the owned and hired trucks, tractors and trailers used in the insured's trucking operations. The policy may also cover either private passenger autos or non-ownership liability or both.

b. Definition

(1) Gross receipts means the total amount earned by the insured for shipping or transporting property.

(2) Mileage means the total live (laden) and dead (unladen) mileage of all autos during the policy period.

(3) Gross receipts include:

(a) The total amount received from the rental of equipment from the insured, with or without drivers, to any person or organization not engaged in the business of transporting property for hire by auto, and

(b) .15 of the total amount received from the rental of equipment from the insured, with or without drivers, to any person or organization engaged in the business of transporting property for hire by auto.

(4) Mileage includes:

(a) The total mileage developed from the rental of equipment from the insured, with or without drivers, to any person or organization not engaged in the business of transporting property for hire by auto, and

(b) .15 of the mileage developed from the rental of equipment from the insured, with or without drivers, to any person or organization engaged in the business of transporting property for hire by auto.

(5) Gross receipts do not include:

(a) Amounts paid to air, sea or land carriers operating under their own permits.

(b) Taxes collected as a separate item and paid directly to the government.

(c) C.O.D. collections for cost of merchandise including collection fees.

(d) Warehouse storage charges.

(e) Advertising revenue.

(6) These definitions apply whether shipment originates with the insured or some other carrier.

c. Premium Development

(1) The rating rules that apply in the headquarters location of the risk shall govern the rating of all operations regardless of location. Headquarters means the address given to the Federal Motor Carrier Safety Administration or any state administrative authority as the principal business address of the risk.

(2) Using the current manual loss costs, develop an average total policy specified car premium for all equipment owned and term-leased as of both 12 months and as of three months prior to the effective date of the policy. Also, include the total premium for other coverages such as nonownership liability and hired auto if the policy provides such coverages.

Also include in the average total policy premium, the premium generated by trucks, tractors and trailers that are rented to any person or organization engaged in the business of transporting property for hire under long-term contracts. Compute this additional premium by multiplying the loss costs that otherwise apply during the period of rental, provided the autos are identified and so designated, by the following factor:

Factor
.15

Table 24.C.3.c.(2) Long-term Hire Factor

(3) Divide the average total policy specified car premium from Paragraph (2) by the gross receipts or mileage developed during the 12-month period ending three months prior to the effective date of the policy.

(4) Convert this amount into a rate per \$100 of gross receipts or per mile of operation.

(5) Compute the advance premium by multiplying the rate per \$100 of gross receipts or per mileage of operation by the estimated total gross receipts (in hundreds) or mileage for the policy period for all autos including those trip-leased.

(6) Compute the earned premium by multiplying the rate per \$100 of gross receipts or per mileage of operation by the audited total gross receipts (in hundreds), whether or not collected, or the audited total mileage, live (laden) or dead (unladen), developed during the policy period.

(7) The following example uses hypothetical specified car premiums for illustrative purposes only:

Gross Receipts Basis:

(a) Total policy specified car premium 12 months prior to the effective date: \$1,500,000

(b) Total policy specified car premium three months prior to the effective date: \$1,400,000

(c) Average total policy specified car premium: \$1,450,000

(d) Total annual gross receipts three months prior to effective date: \$10,000,000

(e) $\$1,450,000 / 10,000,000 = \$.145$

(f) $\$.145 \times 100 = \14.50 (rate per \$100 of gross receipts)

(g) Total audited gross receipts: \$15,000,000

(h) $\$14.50 \times 150,000 = \$2,175,000$ (earned premium)

(8) The following example uses hypothetical specified car premiums for illustrative purposes only:

Mileage Basis:

(a) Total policy specified car premium 12 months prior to the effective date: \$1,500,000

(b) Total policy specified car premium three months prior to the effective date: \$1,400,000

(c) Average total policy specified car premium: \$1,450,000

(d) Total annual mileage three months prior to effective date: 5,000,000

(e) $1,450,000 / 5,000,000 = \$.29$ (rate per mile)

(f) Total audited mileage: 6,500,000

(g) $\$.29 \times 6,500,000 = \$1,885,000$ (earned premium)

d. Medical Payments

Refer to Rule 92. for instructions on providing Auto Medical Payments Coverage. Compute the premium by multiplying the \$100,000 limit liability premium and minimum premium by the following factor:

Limits	\$1000	\$2000	\$5000	\$10,000
	.044	.050	.059	.065

39. PREMIUM DEVELOPMENT – OTHER THAN ZONE-RATED AUTOS

Paragraphs **B.2.** and **B.3.** are replaced by the following:

— **B. Determination Of Classification Rating Factor And Class Code**

- **2.** Determine the primary classification code and rating factor from Rule **40.** based on use class and radius class. For van pools and limousines, the rating factor is based on seating capacity.
- **3.** Except for taxicabs, paratransits, car service, van pools and limousines (other than airport limousines), determine the secondary classification code and rating factor from Rule **40.** based on the seating capacity.

Paragraph **C.2.b.** is replaced by the following:

40. PUBLIC AUTO CLASSIFICATIONS

Paragraphs **D.2.** and **D.3.** are replaced by the following:

— **D. Primary Classifications**

— **2. Use Class**

— **a. Taxicab**

A metered or unmetered auto, other than a Car Service or Limousine, with a seating capacity of eight or less that is operated for hire by the named insured or an employee, but does not pick up, transport or discharge passengers along a route. The auto must be licensed by the appropriate licensing authority, as required by law, based on the territory of operation. A Taxicab — Owner-driver means an individual owner of a single taxicab operated by the individual owner or spouse.

— **b. Car Service**

An unmetered auto, other than a Taxicab or Limousine, with a seating capacity of eight or less that is operated for hire by the named insured or an employee, and operates from a central base station. The auto must be licensed by the appropriate licensing authority, as required by law, based on the territory of operation.

— **c. Limousine**

An unmarked luxury auto, other than a Taxicab or a Car Service, that is operated for hire by the named insured or an employee, and is used on a pre-arranged basis for special or business functions, weddings, funerals or similar purposes. The auto and driver must be in attendance at the beginning and end of the function, and the auto must be licensed by the appropriate licensing authority, as required by law, based on the territory of operation.

— **d. School Bus**

An auto that carries students or other persons to and from school or any school activity including games, outings and similar school trips.

— **(1) Separate codes and rating factors apply to:**

— **(a)** School buses owned by political subdivisions or school districts.

— **(b)** All others, including independent contractors, private schools and church-owned buses.

— **(2)** A policy covering a school bus may be written on an annual term for liability and collision coverages with premium prorated to reflect the actual school term. However, do not give credit for Saturdays, Sundays or holidays or for any other periods of lay-up during the school term.

— **(3)** If a publicly owned school bus is used for special trips unrelated to school activities, refer to company for additional charge.

— **e. Church Bus**

An auto used by a church to transport persons to or from services and other church-related activities. This classification does not apply to public autos used primarily for daily school activities.

— **f. Inter-city Bus**

An auto that picks up and transports passengers on a published schedule of stops between stations located in two or more towns or cities.

— **g. Urban Bus**

An auto that picks up, transports and discharges passengers at frequent local stops along a prescribed route. This classification applies only to vehicles operated principally within the limits of a city or town and communities contiguous to such city or town, and includes scheduled express service between points on that route.

— **h. Airport Bus Or Airport Limousine**

An auto for hire that transports passengers between airports and other passenger stations or motels.

— **i. Charter Bus**

An auto chartered for special trips, touring, picnics, outings, games and similar uses.

— **j. Sightseeing Bus**

An auto accepting individual passengers for a fare for sightseeing or guided tours, making occasional stops at certain points of interest and returning the passengers to the point of origin.

— **k. Transportation Of Athletes And Entertainers**

An auto owned by a group, firm or organization that transports its own professional athletes, musicians or other entertainers.

~~(1) If it is used to transport other professional athletes or entertainers, rate as a charter bus.~~

~~(2) An auto owned by a group, firm or organization to transport its own non-professional athletes, musicians or entertainers, rate as a public auto not otherwise classified.~~

~~**I. Van Pools**~~

~~An auto of the station wagon, van, truck or bus type used to provide prearranged commuter transportation for employees to and from work and is not otherwise used to transport passengers for a charge.~~

~~**(1) Employer Furnished Transportation**~~

~~Transportation is held out by the employer as an inducement to employment, a condition of employment or is incident to employment.~~

~~**(a) Employer Owned Autos**~~

~~Autos owned, or leased for one year or more, by an employer and used to provide transportation only for his employees.~~

~~**(b) Employee Owned Autos**~~

~~Autos owned, or leased for one year or more, by an individual employee and used to provide transportation only for fellow employees.~~

~~**(2) All Other**~~

~~Autos which do not meet the eligibility requirements of Paragraph (1).~~

~~The "Employer Furnished" rating factors do not apply. Use the "All Other" rating factors to compute the premiums for all van pools.~~

~~**m. Transportation Of Employees – Other Than Van Pools**~~

~~Autos of any type used to transport employees other than in van pools.~~

~~(1) Autos owned, or leased for one year or more, by an employer and used to transport only his own employees.~~

~~(a) For private passenger autos, charge rates shown in the state company rates/ISO loss costs for private passenger types (Class Code 5851).~~

~~(b) For all other autos, rate as a van pool – all other (Class Code 5851).~~

~~(2) Autos owned, or leased for one year or more, by a person or organization who is in the business of transporting employees of one or more employers. Rate as public auto not otherwise classified.~~

~~**n. Paratransit**~~

~~A non-emergency auto specially equipped to transport sick, elderly or handicapped individuals and that does not follow fixed routes or fixed schedules. The auto must be licensed by the appropriate licensing authority, as required by law, based on the territory of operation. This classification includes, but is not limited to, autos that may be otherwise known as Ambulettes and Medicars.~~

~~**o. Social Service Agency Auto**~~

~~An auto used by a government entity, civic, charitable or social service organization to provide transportation to clients incident to the social services sponsored by the organization, including special trips and outings.~~

~~(1) This classification includes, for example, autos used to transport:~~

~~(a) Senior citizens or other clients to meal centers, medical facilities, social functions and shopping centers;~~

~~(b) Handicapped persons to work or rehabilitative programs;~~

~~(c) Children to day care centers and Head Start programs; and~~

~~(d) Boy Scout or Girl Scout groups to planned activities.~~

~~(2) The following autos are eligible for this classification:~~

~~(a) Autos owned, or leased for one year or more, by the social service agency.~~

~~(b) Autos donated to the social service agency without a driver.~~

~~(c) Autos hired under contract by the social service agency.~~

~~(3) This classification does not include Paratransits.~~

~~(4) If an auto has more than one use, use the highest rated classification unless 80% of the use is in a lower rated activity. In that case, use the lower rated classification.~~

~~(5) Separate codes and rating factors apply to:~~

(a) Employee-operated autos operated by employees of the social service agency. If a social service auto is also operated by volunteer drivers or other non-agency employees, use the All Other classification unless 80% of the use is by agency employees.

(b) All other autos which do not meet the requirements of Paragraph (a).

(6) Excess liability coverage may be provided to cover autos not owned or licensed by the agency while being used in its social service transportation activities. This coverage may be extended to cover the agency's liability only or the liability of both the agency and, on a blanket basis, the individual liability of agency employees or volunteer donors or owners of the autos. For autos hired, loaned, leased or furnished, refer to Rule 90. For all other non-owned autos, refer to Rule 89.

p. Public Auto Not Otherwise Classified

This classification includes, but is not limited to, autos such as country club buses, cemetery buses, real estate development buses and courtesy buses run by hotels.

3. Non-fleet And Fleet Primary Classifications – Rating Factors And Statistical Codes For Local, Intermediate And Long-Distance Radius

a. Public Auto Use Classes (Except Van Pools)

Rate the following classifications using the base loss cost for the corresponding category. For example, multiply the Car Service factors by the Taxicabs and Limousines base loss costs.

Table 81.D.3.b. Cost Of Hire Basis Uninsured Motorists Coverage Factors

92. MEDICAL PAYMENTS

Rule 92. is replaced by the following:

A. Application

1. Auto Medical Payments Coverage must be provided at a limit of at least \$1,000 on all vehicles designed for travel on public roads and subject to motor vehicle registration under chapter 341, which includes trailers and semitrailers designed for use with such vehicles. Auto Medical Payments Coverage is not required for the following:
 - a. Farm Tractors;
 - b. Well drillers;
 - c. Road Machinery; or
 - d. Snowmobiles.
2. A named insured has the right to reject this coverage. Unless a named insured requests such coverage in writing, the insurer does not have to provide Auto Medical Payments Coverage on a renewal policy when a named insured has rejected the coverage on the policy previously issued by the insurer.
3. If provided, Auto Medical Payments Coverage shall apply to all vehicles on the policy, including hired and non-owned.
4. Use Wisconsin Auto Medical Payments Coverage Endorsement **CA 99-24**.

B. Premium Development

1. The premiums for trucks, tractors, trailers, public autos and private passenger types are in the state company rates/ISO loss costs.
2. For zone-rated risks, multiply the \$100,000 liability premium shown in the state company rates/ISO loss costs by the following factors:

Limit	Factor
\$ 1,000	.055
2,000	.076
5,000	.110
10,000	.137

Table 92.B.2. Zone-rated Medical Payments Factors

3. For policies covering non-owned autos, compute the non-ownership auto medical payments premium by multiplying the liability loss costs applicable to 0-9 total number of employees from Table 89.C.1.a.(1)(LC) by the following factors:

Limit	Factor
\$ 1,000	.036
2,000	.050
5,000	.064
10,000	.071

Table 92.B.3. Non-owned Auto Medical Payments Factors

4. For policies covering hired autos, compute the hired auto medical payments premium by first computing the \$100,000 liability loss cost in accordance with the instructions in Rule 90., based on the estimated annual cost of hire for all autos in Wisconsin. Then, multiply the result by the following factors:

Limit	Factor
\$ 1,000	.053
2,000	.073
5,000	.106
10,000	.131

Table 92.B.4. Hired Auto Medical Payments Factors

5. For all other classes, refer to the section rules.

I

97. UNINSURED MOTORISTS INSURANCE

Rule 97. is replaced by the following:

A. Application

1. Uninsured Motorists Coverage

- ~~a. Uninsured Motorists Bodily Injury Coverage must be provided on all policies at limits of at least \$25,000 per person and \$50,000 per accident.~~
- ~~b. Uninsured Motorists Coverage does not provide coverage for property damage.~~
- ~~c. Use Wisconsin Uninsured Motorists Coverage Endorsement **CA 21 03**. If split limits are provided, also use Split Bodily Injury Uninsured Motorists Coverage Limits Endorsement **CA 21 02**.~~
- ~~d. If Liability Coverage also applies to hired or non-owned automobiles, Uninsured Motorists Bodily Injury Coverage must be provided for these autos.~~

2. Underinsured Motorists Coverage

- ~~a. For policies that do not include Underinsured Motorists Coverage, an insurer is required to provide a written notice of the availability of Underinsured Motorists Coverage, including a brief description of the coverage to a named insured. Such notice is required only one time and in conjunction with the delivery of the policy.~~
- ~~b. A named insured has the right to reject Underinsured Motorists Coverage. The rejection of such coverage shall apply to all persons insured under the policy. Rejection need not be in writing. The absence of a premium payment for Underinsured Motorists Coverage is conclusive proof that the person has rejected such coverage.~~
- ~~c. Unless a named insured requests such coverage in writing, the insurer does not have to provide Underinsured Motorists Coverage on renewal policies when a named insured has rejected the coverage on the policy previously issued by the insurer.~~
- ~~d. If selected, Underinsured Motorists Coverage must be provided at limits of at least \$50,000 per person and \$100,000 per accident.~~
- ~~e. Underinsured Motorists Coverage does not provide coverage for property damage.~~
- ~~f. Use Wisconsin Underinsured Motorists Coverage Endorsement **CA 21 45**. If split limits are provided, also use Split Bodily Injury Underinsured Motorists Coverage Limits Endorsement **CA 21 51**.~~
- ~~g. All references to Uninsured Motorists Coverage elsewhere in this division also include Underinsured Motorists Coverage.~~

B. Premium Development

1. Select the appropriate loss costs table as follows:

- ~~a. For single limits Uninsured Motorists Bodily Injury Coverage, refer to state loss costs Table **97.B.1.a.(LC)**.~~
- ~~b. For single limits Underinsured Motorists Bodily Injury Coverage, refer to state loss costs Table **97.B.1.b.(LC)**.~~
- ~~c. For split limits Uninsured Motorists Bodily Injury Coverage, refer to state loss costs Table **97.B.1.c.(LC)**. The initial limits provided are the minimum limits required in Wisconsin.~~
- ~~d. For split limits Underinsured Motorists Bodily Injury Coverage, refer to state loss costs Table **97.B.1.d.(LC)**. The initial limits provided are the minimum limits required in Wisconsin.~~

2. Identify the exposures in this jurisdiction for which coverage applies and a premium will be charged. Exposures include owned self-propelled vehicles and sets of registration plates not issued to a specific auto (including dealer and transporter plates). Exposures also include employees (for non-owned autos) and the cost of hire (for hired autos), but only if Liability Coverage applies to hired and/or non-owned autos.

(a) Separately determine the premium for each such exposure as follows:

- ~~(1) Determine the exposure type (Private Passenger Type or Other Than Private Passenger Type). For the purposes of this premium development, Private Passenger Types include exposures which are classified under Section III of this division or are explicitly described as Private Passenger Types elsewhere in this division. Unless instructed otherwise, all other exposures are considered to be Other Than Private Passenger Types, even when rating for other coverages is based on Private Passenger Types.~~
- ~~(2) Within the appropriate loss costs table (single or split limits), locate the column corresponding to the exposure type determined in Paragraph **B.2.a.(1)**.~~
- ~~(3) From within this column, determine the appropriate loss cost based on the desired limit of coverage.~~
- ~~(4) For policies (other than Auto Dealers) issued to individual named insureds, add the amount shown in state loss costs Table **97.B.2.a.(4)(LC)**.~~
- ~~(5) Refer to the rules applicable to the exposure elsewhere in this division for additional premium development instructions, if any.~~

- ~~_____ (b) Determine the premium for hired autos as follows:~~
 - ~~_____ (1) Determine the estimated cost of hire for each class of autos the insured expects to hire in this state during the policy period.~~
 - ~~_____ (2) Divide the cost of hire by 100.~~
 - ~~_____ (3) Multiply the result by the appropriate hired autos state loss cost in Rule 97, for the desired limit of coverage.~~
 - ~~_____ (4) Refer to the rules applicable to the exposure elsewhere in this division for additional premium development instructions, if any.~~
- ~~_____ (c) Determine the premium for non-owned autos as follows:~~
 - ~~_____ (1) Determine the total number of employees of the insured at all locations within this state.~~
 - ~~_____ (2) Multiply this amount by the appropriate non-owned autos state loss cost in Rule 97, for the desired limit of coverage.~~
 - ~~_____ (3) Refer to the rules applicable to the exposure elsewhere in this division for additional premium development instructions, if any.~~
- ~~_____ (d) Primary, secondary, fleet, operator experience and use rating factors do not apply.~~
- ~~_____ (e) Do not charge a premium for the following:~~
 - ~~_____ (1) Trailers;~~
 - ~~_____ (2) Owned vehicles which have not been assigned registration plates (such as Auto Dealers' inventory); or~~
 - ~~_____ (3) Registration plates used to transport non-owned autos (such as drive-away contractors rated under Rule 69).~~
- ~~_____ (f) Do not apply the charge in Table 97.B.2.a.(4)(LC) for Underinsured Motorists Coverage.~~
- ~~_____ 3. Do not modify the premium under any rating plan.~~

98. DEDUCTIBLE INSURANCE

Paragraphs **A.1.** and **A.2.** are replaced by the following:

A. Liability Coverages

1. Compute the premium by multiplying the full coverage \$100,000 bodily injury and property damage liability premium by the factor selected as follows:

Deductible Amount	Combined Single Limit		Property Damage Per Accident	
	Non-zone Rated	Zone-rated	Non-zone Rated	Zone-rated
\$ 250	0.984	0.990	0.985	0.991

100,000	0.371	0.429	0.692	0.716

Table 98.A.1. Liability Deductible Factors

2. The following example uses hypothetical loss costs and increased limits factors for a zone-rated risk for illustrative purposes only. You should determine from your individual companies what rates/loss costs and increased limits factors are actually in effect.
- \$500,000 bodily injury and property damage liability limit with a \$1,000 zone-rated combined single limit deductible.
- a. Premium for \$100,000 full coverage — \$2,000.
- b. \$1,000 deductible factor — .963.
- c. Premium for \$100,000 limit with a \$1,000 deductible — $(\$2,000 \times .963) = \$1,926$.
- d. Increased limit factor for \$500,000 limit — 1.53.
- e. Increment factor over \$100,000 limit — .53.
- f. Dollar increment amount — $(\$2,000 \times .53) = \$1,060.00$.
- g. Premium for \$500,000 bodily injury and property damage liability with a \$1,000 deductible — $(\$1,926.00 \text{ plus } \$1,060.00) = \$2,986.00$.
- h. For deductibles not shown, refer to company.

Paragraph **B.** is replaced by the following:

B. Physical Damage Coverages

Compute the premiums as follows. If a deductible applicable to only Theft, Mischief Or Vandalism is selected for Specified Causes Of Loss Coverage, refer to company. For stated amount rating, refer to Rule **101**. At the option of the insured, the comprehensive deductible provisions may be made inapplicable to safety glass breakage. Use Full Safety Glass Coverage Endorsement **CA 04 21**.

1. Private Passenger Types, Trucks, Tractors And Trailers And All Autos Except Zone-rated Risks

a. Computation Procedures

- (1) Determine the base loss cost.
- (2) Use Rule **101**, to determine the factor for the age group of the auto being rated. For exposures rated on a stated amount basis, the Age Group factor is always 1.00.
- (3) Multiply the base loss cost by the Age Group factor.
- (4) Use Rule **101**, to determine the factor for the original cost new of the auto being rated.
- (5) Subtract the applicable factor for the deductible desired from the Original Cost New factor.

- (6) Multiply the result of Paragraph **B.1.a.(3)** by the result of Paragraph **B.1.a.(5)**. Alternatively, the following equation will give the appropriate loss cost for every desired deductible:

Base loss cost x Age Group factor from Rule ~~101~~ x (Original Cost New factor — deductible factor from Rule ~~98~~).

- (7) If the deductible factor is greater than the Original Cost New factor, refer to company.

2. Zone-rated Risks

a. Computation Procedures

(1) Determine the base loss cost.

(2) Use Rule 101. to determine the factor for the age group of the auto being rated. For exposures rated on a stated amount basis, the Age Group factor is always 1.00.

(3) Multiply the base loss cost by the Age Group factor.

(4) Use Rule 101. to determine the factor for the original cost new of the auto being rated.

(5) Subtract the applicable factor for the deductible desired from the Original Cost New factor.

(6) Multiply the result of Paragraph B.2.a.(3) by the result of Paragraph B.2.a.(5). Alternatively, the following equation will give the appropriate loss cost for every desired deductible:

Base loss cost x Age Group factor from Rule 101. x (Original Cost New factor – deductible factor from Rule 98.);

(7) If the deductible factor is greater than the Original Cost New factor, refer to company.

101. PHYSICAL DAMAGE COVERAGE RATING PROCEDURES

Paragraph A.4. is replaced by the following:

A. Actual Cash Value Premiums

4. Premium Computation

a. Base Premium Development

The physical damage base loss costs do not include the application of the following factors necessary to reflect the applicable original cost new and age group. Thus, in order to develop the base premium:

- Multiply the base loss cost for the desired Physical Damage Coverage by the appropriate Original Cost New factor, then
- Multiply the result by the appropriate Age Group factor.
