Refer to the Summary of Company Action Requirements attached.

## **SPECIAL NOTICE**

The Alaska Division of Insurance has asked that we notify participating insurers that adopt ISO forms or form-related rule revisions that they must accept the explanatory materials in the ISO filing submission. The Division will consider insurers that do not accept the explanatory materials as deviating from the ISO filing. These insurers must explain their deviation as they would in any other form or form-related rule revision. The Division will assume that insurers that have provided ISO with filing authorization have accepted the explanatory materials in filings ISO makes on their behalf unless the insurer provides a written explanation for the deviation. Insurers that have not provided ISO with filing authorization must include in their adoption letters to the Division a statement either acknowledging that they are accepting the explanatory materials that were part of the ISO filing, or an explanation for their deviation.

---

## **KENTUCKY – EFFECT OF ISO REVISION ON FLEX RATING**

This revision does not result in any change which would increase or decrease supplementary rating information for any classification of risks within any territory more than 25%.

A company that decides to revise its supplementary rating information should determine the overall rate level impact of its revision and any other revisions that it has implemented over the preceding 12 months. ISO has not made any revision of supplementary rating information for Commercial Auto over the preceding 12 months which would result in percent indications different than those contained in the filing.

---

## **NEW HAMPSHIRE – NOTICE OF ELIMINATION/REDUCTIONS IN COVERAGE**

In a future circular, we will provide an Advisory Notice to Policyholders which will outline changes being made in filing CA-2023-OPPSF. This Policyholder Notice will outline elimination or reductions of coverage required by NH Rev. Stat. Ann. Sec. 264:14.

## IMPORTANT NOTICE FOR USERS OF ISO PRODUCTS AND SERVICES

Please make sure that your company has authorized your use of this product and has complied with the requirements applicable in the jurisdiction where you plan to use it.

We distribute both state-specific and multistate products and services. We do not distribute all the multistate products and services for use in every jurisdiction due to corporate policy, regulatory preference, or variations or lack of clarity in state laws.

We provide participating insurers with information concerning the jurisdictions for which our products and services are distributed. Even in those jurisdictions, each insurer must determine what filing requirements, if any, apply and whether those requirements have been satisfied.

Now, as in the past, all of our products and services are advisory, and are made available for optional use by participating insurers as a matter of individual choice. Your company must decide for itself which, if any, ISO products or services are needed or useful to its operation and how those selected for use should be applied. We urge that you be guided by the advice of your attorneys on the legal requirements.
