DATA QUALITY

Statistical plan data reported to ISO is first processed through a system of rigorous automated data verification procedures so that only valid data would be used for ratemaking. Subsequent to this initial data submission review, additional analyses on the statistical plan data involving an even more customized data review for this line were performed by staff. During these processes, various data records were excluded from the review. The ISO staff responsible for this circular also reviewed the data for reasonableness.

Connecticut Supplement To The 2022 Commercial Auto Multistate Rules Revision

About This Filing

This supplement addresses state exceptions to the ISO Commercial Lines Manual Division One – Automobile – Multistate Rules ("multistate manual") to complement the changes being made in the multistate portion of this filing. Due to the large volume of material in the filing, we provide a table below indicating, by rule number, what type of change has been made. Changes are broadly categorized as follows:

- ◆ No Change: In these rules the only change is the rule number itself and updates to the references of other rules.
- ◆ Clarified Meaning: In these rules, we have altered the language to make the instructions easier to understand and implement. However, there is no change made to the substance of the rating instruction.
- ◆ Rating Change: In these rules the advisory rating instructions have changed.
- ◆ Deleted: These rules are deemed no longer necessary.
- ◆ New Rule: These rules do not have a corresponding old rule.

Background

In the multistate portion of this filing, we are withdrawing existing rules and replacing them with similar content in new rules, with the rule number from the standard manual incremented by 200. For example, Rule 212 contains the content corresponding to former Rule 12.

Explanation of Changes

The following state exceptions are being added, revised or withdrawn to correspond with the changes being made in the multistate portion of this filing. The explanations for these changes are described on the following pages, organized by the new rule number:

Rule **222**. Premium Development – Other Than Zone-Rated Autos

The fleet factors have been replaced by the fleet size factors used in the Optional Class Plan rating.

Rule **223**. Trucks, Tractors and Trailers Classifications

The primary and secondary classification tables have been updated to match the Optional Class Plan rating. The paragraph regarding Amusement Devices has been moved to multistate Rule **222**. The additional coverage factors have a new designated home in Rule **308**.

Rule 224. Truckers/Motor Carriers

This exception contains the Zone Combinations Factors only. The paragraph on premium determination now resides in the multistate Rule **224**.

Rule 225. Premium Development – Zone-Rated Autos

The fleet factor has been replaced by a fleet size factor, but the values have not changed. We are expanding the table structure here and elsewhere to set it up for a future experience-based review.

The primary and secondary classification tables for zone-rated vehicles now reside in this rule.

Rule 231. Eligibility

The classification codes and Optional Class Plan rating factors for Private Passenger Types now reside in the state exception to Rule **231**.

Rule 232. Private Passenger Types Classifications

The fleet size factors used in the Optional Class Plan rating now reside in the state exception to Rule **232**.

Rule 239. Premium Development – Other Than Zone-Rated Autos

The fleet factor has been replaced by a fleet size factor, but the values have not changed. We are expanding the table structure here and elsewhere to set it up for a future experience-based review. The Mechanical Lift Factor has been moved to the multistate Rule **239**.

Rule 240. Public Auto Classifications

The paragraph on Primary Classifications resides in the multistate Rule **240**, since most states share this language. The state exception to Rule **240**, now only contains the classifications that differ from the multistate rule. The additional coverage factors have a new designated home in Rule **308**.

Rule 241. Premium Development – Zone-Rated Autos

The state exception for Rule **41**, is no longer needed since the Mechanical Lift Factor has been moved to the multistate Rule **239**.

Rule 249. Auto Dealers – Premium Development for Common Coverage

The Junk Dealers Plates Factor has been moved to the state exception to Rule **278**.

Rule 264. Ambulance Services

We converted the premium computation instructions to our new standard format.

Rule 271. Fire Departments

We converted the premium computation instructions to our new standard format.

Rule 277. Motorcycles

The Uninsured Motorists premium computation instructions previously resided in the multistate Rule 277. but have been moved to the state exception pages.

Rule 278. Registration Plates Not Issued For A Specific Auto

The premium computation instructions for Junk Dealers Plates have been clarified and are now included in the state exception to Rule 278. The Junk Dealers Plates Factor previously resided in the state exception to Rule 249.

Rule 288. Drive Other Car Coverage

We converted the premium computation instructions to our new standard format.

Rule 297. Uninsured Motorists Insurance

We converted the premium computation instructions to our new standard format.

Rule 298. Deductible Insurance

Liability Deductibles will now be priced with a Deductible Discount Factor that is subtracted from the Increased Limits Factor. This is a change in presentation only and is mathematically equivalent to the prior approach. The factor tables that previously existed in Rule 98. and Rule 298. now reside in the state exceptions.

We have introduced higher deductible amounts for the Other Than Collision coverages. The support for this update was provided in the multistate rules revision filed in 2019 with ISO filing designation CA-2019-RRU19.

Rule 299. Financial Responsibility Laws – Certification

We converted the premium computation instructions to our new standard format.

Rule 301. Vehicle Age and Price Bracket

We have changed the name of this rule to reflect its focus on Vehicle Age and Price Bracket Rating. These rating variables are now used for both Liability and Physical Damage.

Rule 308. Physical Damage Coverages

This rule was introduced to house some physical damage content that previously resided elsewhere. The factors in section A used to be in Rules 23. And 25.

Rule **311**. Terrorism Endorsement Options

The state exception for this rule has been removed since the rule now exists in the multistate manual.

In addition to the above, in ISO Filing CA-2022-OMCDF, CA 28 05, Connecticut Abuse And Molestation Exclusion For Covered Autos Liability Exposure, was withdrawn and the multistate version was made applicable in Connecticut. As a result, the new state exception to Rule **212**. Forms Portfolio Reference will no longer reference CA 28 05.

297. UNINSURED MOTORISTS INSURANCE

Rule 297. is replaced by the following:

A. Application

1. Uninsured And Underinsured Motorists Coverage

- a. Uninsured and Underinsured Motorists Bodily Injury Coverage must be provided at limits equal to the policy's bodily injury liability limits.
- b. Increased limits Uninsured and Underinsured Motorists Bodily Injury Coverage must be offered at twice the bodily injury liability limits.
- c. Any named insured may, by written request, select lower Uninsured and Underinsured Motorists Bodily Injury Coverage limits than their bodily injury liability limit, but may not select less than the minimum financial responsibility limits required in Connecticut. The written request is only effective if a named insured has signed an informed consent form. A rejection of higher limits applies to all subsequent renewals unless the named insured makes a written request for a change. Requests for changes in Uninsured and Underinsured Motorists Bodily Injury Coverage limits must be signed by a named insured.
- d. An option to select Underinsured Motorists Conversion Coverage must be offered in accordance with Paragraph A.2.
- e. Uninsured and Underinsured Motorists Coverage does not provide coverage for property damage.
- f. All references to Uninsured Motorists Coverage elsewhere in this division also include Underinsured Motorists Coverage.

2. Underinsured Motorists Conversion Coverage

- a. The option to select Underinsured Motorists Conversion Bodily Injury Coverage must be offered.
- b. Increased limits Underinsured Motorists Conversion Bodily Injury Coverage must be offered at twice the bodily injury liability limits.
- c. Any named insured may, by written request, select lower Underinsured Motorists Conversion Bodily Injury Coverage limits than their bodily injury liability limit, but may not select less than the minimum financial responsibility limits required in Connecticut. The written request is only effective if a named insured has signed an informed consent form. A rejection of higher limits applies to all subsequent renewals unless the named insured makes a written request for a change. Requests for changes in Underinsured Motorists Conversion Bodily Injury Coverage limits must be signed by a named insured.
- d. If this option is selected, Underinsured Motorists Conversion Bodily Injury Coverage is provided instead of standard Underinsured Motorists Bodily Injury Coverage, and is broader than the coverage provided under the standard Uninsured Motorists Bodily Injury Coverage with respect to an accident involving an underinsured motor vehicle. If Underinsured Motorists Conversion Bodily Injury Coverage is selected, coverage will differ with respect to accidents involving underinsured motor vehicles as follows:
 - (1) Underinsured Motorists Conversion Bodily Injury Coverage becomes available if the insured's damages exceed the sum of all payments received by or on behalf of the insured from or on behalf of the at-fault parties. Standard Uninsured Motorists Bodily Injury Coverage becomes available if the insured's Uninsured Motorists Bodily Injury Coverage limit exceeds the sum of the at-fault parties' liability limits.
 - (2) When determining the amount the company will pay, the limit of liability for Underinsured Motorists Conversion Bodily Injury Coverage is not reduced by amounts paid by or on behalf of a tortfeasor or any third party. The limit of insurance for standard Uninsured Motorists Bodily Injury Coverage is reduced by amounts paid by or on behalf of a tortfeasor or any third party.
- e. Underinsured Motorists Conversion Coverage does not provide coverage for property damage.

3. Endorsements

For Uninsured and Underinsured Motorists Coverage or Underinsured Motorists Conversion Coverage, use Connecticut Uninsured And Underinsured Motorists Coverage Endorsement CA 21 57. For split limits, also use Split Bodily Injury Uninsured Motorists Coverage Limits Endorsement CA 21 02 and Split Bodily Injury Underinsured Motorists Coverage Limits Endorsement CA 21 51.

B. Premium Computation

- 1. Identify the exposures in this jurisdiction for which coverage applies and for which a premium will be charged. Exposures include owned self-propelled vehicles and sets of registration plates not issued to a specific auto (including dealer and transporter plates).

Do not charge a premium for the following:

- a. Trailers;
- b. Hired and non-owned autos;

c. Owned vehicles which have not been assigned registration plates (such as Auto Dealers' inventory); or

d. Registration plates used to transport non-owned autos (such as drive-away contractors rated under Rule 269.).

2. Determine the exposure type (Private Passenger Type or Other Than Private Passenger Type). For the purposes of this premium development, Private Passenger Types include exposures which are classified under Section III of Division One or are explicitly described as Private Passenger Types elsewhere in Division One. Unless instructed otherwise, all other exposures are considered to be Other Than Private Passenger Types, even when rating for other coverages is based on Private Passenger Types.

3. For some autos, the Uninsured And Underinsured Motorists Coverage Premium Formula is given in the section for that auto. For all other autos, the following premium formula applies for each auto. Do not modify the premium under any rating plan. The additional premium in Paragraph B.4. may also apply.

Premium = Loss Cost

a. Select the appropriate loss costs table as follows:

(1) For Single Limits Uninsured Motorists Bodily Injury Coverage, refer to state loss costs Table **297.B.3.a.(1)(LC)**.

(2) For Single Limits Underinsured Motorists Bodily Injury Coverage, refer to state loss costs Table **297.B.3.a.(2)(LC)** if Conversion Coverage does not apply.

(3) For Single Limits Underinsured Motorists Conversion Bodily Injury Coverage, refer to state loss costs Table **297.B.3.a.(3)(LC)** if Conversion Coverage applies.

(4) For Split Limits Uninsured Motorists Bodily Injury Coverage, refer to state loss costs Table **297.B.3.a.(4)(LC)**. The initial limits provided are the minimum financial responsibility limits required in Connecticut.

(5) For Split Limits Underinsured Motorists Bodily Injury Coverage, refer to state loss costs Table **297.B.3.a.(5)(LC)** if Conversion Coverage does not apply. The initial limits provided are the minimum financial responsibility limits required in Connecticut.

(6) For Split Limits Underinsured Motorists Conversion Bodily Injury Coverage, refer to state loss costs Table **297.B.3.a.(6)(LC)** if Conversion Coverage applies. The initial limits provided are the minimum financial responsibility limits required in Connecticut.

4. For policies (other than Auto Dealers) issued to individual named insureds, charge an additional premium once for each exposure. Do not charge the additional premium a second time for Underinsured Motorists Coverage (with or without Conversion Coverage).

A flat fee not to exceed \$10 may be charged for the filing of an SR-22 certificate of insurance on behalf of any risk requiring certification under the motor vehicle laws.

C. Surcharge Determination

1. Owners

a. Auto Dealers

Compute the surcharge as follows.

$$\text{Surcharge} = 2.00 * \text{Liability Loss Cost} * (\text{Increased Limits Factor} - \text{Deductible Discount Factor}) * \text{Surcharge Factor}$$

- (1) Refer to the state loss costs/rates. Use the Private Passenger Types Liability Loss Cost for the territory indicated in Rule **218.A.3.**
- (2) Refer to Rule **300.** for the Increased Limits Factor.
- (3) Refer to Rule **298.A.** for the Deductible Discount Factor.

For owners other than Auto Dealers, first determine which vehicle on the policy has the highest premium for Bodily Injury, Property Damage and Drive Other Car, modified in accordance with any rating plan that applies.

$$\text{Surcharge} = \text{Highest Vehicle Premium} * \text{Surcharge Factor}$$

- (1) Sum the premiums for Bodily Injury, Property Damage and Drive Other Car for the vehicle with the highest such total.
- (2) Refer to Table **299.C.3.** for the Surcharge Factor.

2. Non-owners

a. Named Operators

If the policy is written to insure a named operator, apply the appropriate surcharge to the policy premium.

$$\text{Surcharge} = \text{Premium} * \text{Surcharge Factor}$$

- (1) Use the policy's non-ownership liability premium.
- (2) Refer to Table **299.C.3.** for the Surcharge Factor.

b. Drive Other Car Coverage

If coverage is provided to a non-owner under a policy which has been extended to cover the non-owner as a named individual according to Rule **288.**, charge the following surcharge.

$$\text{Surcharge} = \text{Loss Cost} * (\text{Increased Limits Factor} - \text{Deductible Discount Factor}) * \text{Surcharge Factor}$$

(1) Refer to the state loss costs/rates. Use the Private Passenger Types Liability Loss Cost for the territory in which the named individual is located.

(2) Refer to Rule **300.** for the Increased Limits Factor.

(3) Refer to Rule **298.A.** for the Deductible Discount Factor.

(4) Refer to Table **299.C.3.** for the Surcharge Factor.

— ~~2. Prepaid Policies~~

If cancelled during the first year, compute the return premium by multiplying the pro rata unearned premium for the first full year by the factor in Table ~~11.B.5.~~, then adding the full annual premium for subsequent years and rounding to the next higher whole dollar.

— ~~3. Policies With Term Less Than One Year~~

Compute the return premium by multiplying the pro rata unearned premium by the factor in Table ~~11.B.5.~~ and rounding to the next higher whole dollar.

Paragraph C.3. is replaced by the following:

3. Gross Receipts Basis (Class Code 7480) Or Mileage Basis (Class Code 7490) – Liability Coverage

a. Eligibility

(1) Local truckers may be written on the gross receipts rating basis if:

(a) The risk has been in business for at least 15 months immediately preceding the effective date of the policy, and

(b) The risk is comprised of 10 or more trucks, tractors or trailers used for local trucking.

(2) Risks comprised of intermediate and/or long distance truckers only, or risks comprised of local and intermediate and/or long distance truckers, may be written on the gross receipts or mileage rating basis if:

(a) The risk has been in business for at least 15 months immediately preceding the effective date of the policy, and

(b) The risk is comprised of five or more trucks or tractors used for intermediate or long distance trucking or 10 or more trucks, tractors or trailers.

(3) A risk which principally operates trip leased equipment must be submitted to the company for rating.

(4) A risk which otherwise qualifies but which has been in business less than 15 months may be submitted to the company to determine its eligibility.

(5) The policy must cover the insured for all the owned and hired trucks, tractors and trailers used in the insured's trucking operations. The policy may also cover either private passenger autos or non-ownership liability or both.

b. Definition

(1) Gross receipts means the total amount earned by the insured for shipping or transporting property.

(2) Mileage means the total live (laden) and dead (unladen) mileage of all autos during the policy period.

(3) Gross receipts include:

(a) The total amount received from the rental of equipment from the insured, with or without drivers, to any person or organization not engaged in the business of transporting property for hire by auto, and

(b) 15 of the total amount received from the rental of equipment from the insured, with or without drivers, to any person or organization engaged in the business of transporting property for hire by auto.

(4) Mileage includes:

(a) The total mileage developed from the rental of equipment from the insured, with or without drivers, to any person or organization not engaged in the business of transporting property for hire by auto, and

(b) 15 of the mileage developed from the rental of equipment from the insured, with or without drivers, to any person or organization engaged in the business of transporting property for hire by auto.

(5) Gross receipts do not include:

(a) Amounts paid to air, sea or land carriers operating under their own permits.

(b) Taxes collected as a separate item and paid directly to the government.

(c) C.O.D. collections for cost of merchandise including collection fees.

(d) Warehouse storage charges.

(e) Advertising revenue.

(6) These definitions apply whether shipment originates with the insured or some other carrier.

c. Premium Development

- (1) The rating rules that apply in the headquarters location of the risk shall govern the rating of all operations regardless of location. Headquarters means the address given to the Federal Motor Carrier Safety Administration or any state administrative authority as the principal business address of the risk.
- (2) Using the current manual loss costs, develop an average total policy specified car premium for all equipment owned and term-leased as of both 12 months and as of three months prior to the effective date of the policy. Also, include the total premium for other coverages such as nonownership liability and hired auto if the policy provides such coverages.

Also include in the average total policy premium, the premium generated by trucks, tractors and trailers that are rented to any person or organization engaged in the business of transporting property for hire under long-term contracts. Compute this additional premium by multiplying the loss costs that otherwise apply during the period of rental, provided the autos are identified and so designated, by the following factor:

Factor
.15

Table 24.C.3.c.(2) Long-term Hire Factor

- (3) Divide the average total policy specified car premium from Paragraph (2) by the gross receipts or mileage developed during the 12-month period ending three months prior to the effective date of the policy.
- (4) Convert this amount into a rate per \$100 of gross receipts or per mile of operation.
- (5) Compute the advance premium by multiplying the rate per \$100 of gross receipts or per mileage of operation by the estimated total gross receipts (in hundreds) or mileage for the policy period for all autos including those trip-leased.
- (6) Compute the earned premium by multiplying the rate per \$100 of gross receipts or per mileage of operation by the audited total gross receipts (in hundreds), whether or not collected, or the audited total mileage, live (laden) or dead (unladen), developed during the policy period.
- (7) The following example uses hypothetical specified car premiums for illustrative purposes only:

Gross Receipts Basis:

- (a) Total policy specified car premium 12 months prior to the effective date: \$1,500,000
- (b) Total policy specified car premium three months prior to the effective date: \$1,400,000
- (c) Average total policy specified car premium: \$1,450,000
- (d) Total annual gross receipts three months prior to effective date: \$10,000,000
- (e) $\$1,450,000 / 10,000,000 = \$.145$
- (f) $\$.145 \times 100 = \14.50 (rate per \$100 of gross receipts)
- (g) Total audited gross receipts: \$15,000,000
- (h) $\$14.50 \times 150,000 = \$2,175,000$ (earned premium)
- (8) The following example uses hypothetical specified car premiums for illustrative purposes only:

Mileage Basis:

- (a) Total policy specified car premium 12 months prior to the effective date: \$1,500,000
- (b) Total policy specified car premium three months prior to the effective date: \$1,400,000
- (c) Average total policy specified car premium: \$1,450,000
- (d) Total annual mileage three months prior to effective date: 5,000,000
- (e) $1,450,000 / 5,000,000 = \$.29$ (rate per mile)
- (f) Total audited mileage: 6,500,000
- (g) $\$.29 \times 6,500,000 = \$1,885,000$ (earned premium)

d. Medical Payments

If the policy provides medical payments, compute the premium by multiplying the \$100,000 limit liability premium and minimum premium by the following factors:

Limits	\$500	\$1000	\$2000	\$5000
	.037	.044	.050	.059

Table 98.A.1. Liability Deductible Factors

2. The following example uses hypothetical loss costs and increased limits factors for a zone-rated risk for illustrative purposes only. You should determine from your individual companies what rates/loss costs and increased limits factors are actually in effect.

\$500,000 bodily injury and property damage liability limit with a \$1,000 zone-rated combined single limit deductible.

- a. Premium for \$100,000 full coverage — \$2,000.
- b. \$1,000 deductible factor — .963.
- c. Premium for \$100,000 limit with a \$1,000 deductible — $(\$2,000 \times .963) = \$1,926$.
- d. Increased limit factor for \$500,000 limit — 1.53.
- e. Increment factor over \$100,000 limit — .53.
- f. Dollar increment amount — $(\$2,000 \times .53) = \$1,060.00$.
- g. Premium for \$500,000 bodily injury and property damage liability with a \$1,000 deductible — $(\$1,926.00 \text{ plus } \$1,060.00) = \$2,986.00$.
- h. For deductibles not shown, refer to company.

Paragraph **B.** is replaced by the following:

B. Physical Damage Coverages

Compute the premiums as follows. If a deductible applicable to only Theft, Mischief Or Vandalism is selected for Specified Causes Of Loss Coverage, refer to company. For stated amount rating, refer to Rule 101. At the option of the insured, the comprehensive deductible provisions may be made inapplicable to safety glass breakage. Use Full Safety Glass Coverage Endorsement **CA 04 21**.

1. Private Passenger Types, Trucks, Tractors And Trailers And All Autos Except Zone-rated Risks

a. Computation Procedures

- (1) Determine the base loss cost.
- (2) Use Rule 101. to determine the factor for the age group of the auto being rated. For exposures rated on a stated amount basis, the Age Group factor is always 1.00.
- (3) Multiply the base loss cost by the Age Group factor.
- (4) Use Rule 101. to determine the factor for the original cost new of the auto being rated.
- (5) Subtract the applicable factor for the deductible desired from the Original Cost New factor.

~~(6) Multiply the result of Paragraph **B.1.a.(3)** by the result of Paragraph **B.1.a.(5)**. Alternatively, the following equation will give the appropriate loss cost for every desired deductible:~~

~~Base loss cost x Age Group factor from Rule **101**. x (Original Cost New factor – deductible factor from Rule **98**.)~~

~~(7) If the deductible factor is greater than the Original Cost New factor, refer to company.~~

Rule ~~99~~ is replaced by the following:

~~A. Drive Other Car Coverage~~

~~If an individual files either an SR-22 certificate of insurance (AAMVA uniform financial responsibility form) or, with respect to minor owners, a Connecticut special financial responsibility insurance certificate in order to comply with the requirements of the motor vehicle laws, this coverage shall be extended in accordance with Rule ~~88~~.~~

~~B. Filing Fee~~

~~1. Excepted Risks~~

~~No fee is required for the filing of a Connecticut special financial responsibility insurance certificate on behalf of the following risks:~~

- ~~a. Commercial driving schools~~
- ~~b. Auto dealers and repairers~~
- ~~c. Junk yards~~
- ~~d. Leasing or rental concerns~~
- ~~e. Minor owners~~
- ~~f. Transporters~~

~~2. Flat Fee~~

~~A flat fee not to exceed \$10 may be charged for the filing of an SR-22 certificate of insurance on behalf of any risk requiring certification under the motor vehicle laws.~~

~~C. Surcharge Determination~~

~~1. Application~~

~~To compute the additional premium, determine the premiums to be surcharged for bodily injury and property damages liability as follows:~~

~~a. Owners~~

~~(1) Auto Dealers Risks~~

~~For the rating territory determined in accordance with Rule ~~18.A.3~~, multiply the premiums for private passenger types by the following factor:~~

Factor
2.00

Table 99.C.1.a.(1) Owners Auto Dealers Risks Coverage – Surcharge Factor

~~(2) All Others~~

~~Apply the appropriate surcharge to the sum of the premium for the highest rated auto owned by the insured and the premium for drive other car coverage, modified in accordance with any rating plan that applies.~~

~~b. Non-owners~~

~~(1) Named Operators~~

~~If the policy is written to insure a named operator, apply the appropriate surcharge to the policy premium.~~

~~(2) Drive Other Car Coverage~~

~~If coverage is provided under a policy which has been extended to cover a named individual according to Rule ~~88~~, apply the appropriate surcharge to the private passenger type rates for the territory in which the named individual is located.~~

~~2. Premium Development~~

~~Determine the surcharges as follows:~~

- ~~a. For the first three years following a conviction for driving while intoxicated or under the influence of drugs, hit and run, or homicide or assault with an auto, use the following factor:~~

Paragraph A.4. is replaced by the following:

A. Actual Cash Value Premiums

4. Premium Computation

a. Base Premium Development

The physical damage base loss costs do not include the application of the following factors necessary to reflect the applicable original cost new and age group. Thus, in order to develop the base premium:

- Multiply the base loss cost for the desired Physical Damage Coverage by the appropriate Original Cost New factor, then
- Multiply the result by the appropriate Age Group factor.
