

**FUEL, SEPTIC AND BUS OPERATORS PROGRAM
RULE PAGE**

1. Form 117683 - Automatic Fill-Failure to Supply Endorsement

Description: This optional endorsement amends the ISO General Liability Coverage Form to provide coverage for failure to supply fuel or LP gas.

This form is added with no premium charge.

The form is “optional” for all the market segments we will be underwriting including Bus Contracting and Septic services. However, it will be mandatory/included with all oil heat and propane gas delivery accounts.

2. Form 117684 —Petroleum Marketers Pollution Endorsement

Description: This optional form provides exceptions to the pollution exclusion for BI, PD and/or personal injury at any site upon which any insured is performing operations.

This form is added with no premium charge.

The form is “optional” for all the market segments we will be underwriting including Bus Contracting and Septic services. However, it will be mandatory/included with all oil heat and propane gas delivery accounts.

3. Form 117685 —Septic System Pollution Endorsement

Description: This optional form provides exceptions to the pollution exclusion for Bodily Injury and/or Property Damage at any site upon which any insured is performing operations.

No premium charge applies to this endorsement.

The form is “optional” for all the market segment we will be underwriting including Bus Contracting and Oil Heat and Propane Gas delivery. However, it will be mandatory/included with all septic services accounts.
